5th International Congress
World Association
of Reproductive Medicine

10-13 October 2010,
World Trade Centre, Moscow, Russia

www.warm2010.ru
Dear Sirs,

With great honour and pleasure we would like to inform you that the 5th World Congress of the World Association of Reproductive Medicine will be held in Moscow, Russia on 10-13 October 2010.

The Congress aims at bringing together professionals from all over the globe to exchange knowledge and experience, present the results of scientific research and discuss new tendencies in the area of gynecology and reproductive medicine.

The program of the Congress will encompass a wide range of topics in plenary and section sessions, round tables and workshops. WARM 2010 will host up to 1000 physicians and will be held in the Congress Centre of the World Trade Centre, Moscow, a purpose-built world-class venue which is considered to be the most advanced and professionally equipped convention site in Russia.

One of the special highlights of the Congress – a trade exhibition – will become a showcase of state-of-the-art technologies used in reproductive medicine and latest advances in the pharmaceutical industry as well as an ample opportunity to expand the company's presence on the Russian market.

We are honoured to invite you to take part in the WARM 2010 exhibition or become a Sponsor of the event.

We are looking forward to your positive decision and hope to see you as a business partner of the key professional event of the year!

Faithfully Yours,

WARM Vice-president for Russia

Dr. Sergey Yakovenko

Expanding Boundaries
in Reproductive Medicine and Technology

WARM 2010
10-13 October 2010
World Trade Centre, Moscow, Russia

WARM History

W.A.R.M. is the World Association of Reproductive Medicine (www.warmonline.org), founded in 2001 and currently based in Rome. Following its key objectives WARM actively develops scientific research in the area of reproductive medicine and makes sure the results of the research are put into practice. The Association unites world’s leading specialists in scientific and practical medicine, psychology, molecular biology and embryology, religious leaders, ethics and law specialists.

After its successful launch in 2002 in Sabaudia, Italy, the Congress took place in Rome in 2004 and 2006 and in Guadalajara, Mexico, in 2008.

The Congress has become a meeting point for top level professionals and the most significant event in the field of reproductive medicine.

WARM 2010 Scientific Program:

1. Innovations in Assisted Reproductive Technologies
2. IMSI & male infertility
3. Vitrification of eggs and embryos
4. Mild Stimulation
   Parallel session of International Society for In Vitro Fertilization and Japan Society for Fertilization and Implantation
5. Ovarian Hyperstimulation Syndrome (OHSS) prevention
6. Artificial gametes
7. Ovulation induction
8. Poor responders
9. Egg donation
10. In Vitro Maturation (IVM)
11. Fertility preservation and family planning
12. Optimization of embryo culturing
13. Embryo selection
14. Implantation and its failure
15. Stem cells
16. Controversies in Assisted Reproductive Technologies
17. Immunology of reproduction
18. Preimplantation genetic diagnosis (PGD)
19. Endoscopy & reproductive surgery
20. Follow-up of children born after In Vitro Fertilisation (IVF)
21. ART and ethics
22. Laboratory applications of animal research
23. Oncology and Reproduction
24. Reproductive Endocrinology
25. Contraception

Pre-Congress Hands-On Workshops (10 October 2010)

Apart from the Congress plenary lectures and section discussions Congress participants will have a chance to attend four Pre-congress Courses on the following topics:

1. Oocyte Vitrification
2. Intracytoplasmic Morphologically Selected Sperm Injection (IMSI)
3. Mild IVF Cycle
4. In Vitro Maturation (IVM)
5. Human Embryonic Stem Cells
6. Novel Technologies in Hysteroscopying Surgery
7. Cryopreservation of Ovarian Tissue
Exhibiting at WARM 2010

—is a unique opportunity:
• to explore a vast potential of the Russian market;
• to present your company at the world’s leading professional event;
• to present your products to a wide range of specialists;
• to establish long-term business contacts among the Russian professional audience.
