

Subject index

Alzheimer's disease
Arteriosclerosis, demographic control, Friuli-Venezia Giulia 249

Anophelism
Malaria, Italy 237

Antibiotics
Prescriptions, pharmacoepidemiology 229

Arteriosclerosis
Alzheimer's disease, demographic control, Friuli-Venezia Giulia 249

Asbestos
Bulk samples: methods of analysis 213
Exposition, fibers: methods of analysis 139
Mesothelioma, cancerogenesis 253

Bulk samples: methods of analysis
Asbestos 213

Cancer
Selenium, exposition, human tissues: analysis, colon 243

Cancerogenesis
Mesothelioma, asbestos 253

Cats
Demographic control, welfare 223

Chemical substances
FAO, guidelines, pesticides, information systems, PIC 383, 387
Good laboratory practice 401
Good laboratory practice, quality control 439
Information systems 433
IRPTC, data banks 417, 419, 425
ISS, INSC 445
ISS, research and regulatory activities 391
OECD, guidelines, good laboratory practice 395
OECD, regulatory activities, guidelines 373
On-line databases 411
Risk assessment 363, 367

Congenital heart diseases
Congenital malformations, congenital hypothyroidism, RNIC, neonatal screening 289

Congenital hypothyroidism 299
Congenital malformations, congenital heart diseases, RNIC, neonatal screening 289
L-thyroxine, therapy 325
Neonatal screening, RNIC, iodine deficiency, therapy 275
Neonatal screening, screening program organization 269
Neuropsychological development, follow-up 335, 339, 343
Risk factors: evaluation, RNIC, neonatal screening 295
Thyroid autoimmunity 317
Transient thyroid disfunctions, neonatal screening, iodine deficiency 329

Congenital malformations
Congenital heart diseases, congenital hypothyroidism, RNIC, neonatal screening 289

Cultured mammalian cells
DNA, mutagenesis 157
DNA, mutations, repair, chemical carcinogens 183, 191

Data banks
IRPTC, chemical substances 417, 419, 425

Directives
Nuclear magnetic resonance, magnetic fields, exposure levels 71, 83, 89
see also Guidelines

DNA
Mutagenesis, cultured mammalian cells 157
Mutations, cultured mammalian cells, repair, chemical carcinogens 183, 191

Equipments: installations
Nuclear magnetic resonance, quality control, technical requirements, safety 123

Nuclear magnetic resonance,
technical requirements, safety 95, 109, 119

Extravascular catheters
Infections, intravascular catheters, microbial colonization 201

Fibers: methods of analysis
Asbestos, exposition 139

Food and Agriculture Organization (FAO)
Chemical substances, guidelines, pesticides, information systems, PIC 383, 387

Friuli-Venezia Giulia
Arteriosclerosis, Alzheimer's disease, demographic control 249

Good laboratory practice
Chemical substances 401
OECD, guidelines, chemical substances 395
Quality control, chemical substances 439

Guidelines
FAO, chemical substances, pesticides, information systems, PIC 383, 387
OECD, chemical substances 373
OECD, good laboratory practice, chemical substances 395

INSC
Chemical substances, ISS 445

International Register of Potentially Toxic Chemicals *see* IRPTC

Intravascular catheters
Infections, extravascular catheters, microbial colonization 201

Iodine deficiency
Congenital hypothyroidism, neonatal screening, RNIC, therapy 275
Congenital hypothyroidism, transient thyroid disfunctions, neonatal screening 329

- Neuropsychological development 347
- Transient neonatal hypothyroidism, transient neonatal hyperthyrotropinemia 309
