

TABLE OF CONTENTS

1. QUINTILIANI M. and BOCCACCI M. — The effect of treatment with bromo- and iodoacetic acids on the mortality by X-irradiation in mice	page 5
2. FRANK M. — A generator for trains of pulses	» 11
3. BARONE A. and SCAFATI A. — The measurement of the propagation velocity of ultrasounds in biological tissues using an interferometric method	» 13
4. MILAZZO G. — An apparatus for the measurement of vapour pressure	» 32
5. MARZADRO M. — The rapid microdetermination of carbon and hydrogen in organic substances containing phosphorus, sulphur and halogens	» 39
6. BUSELLU M. A., MARZADRO M. and ROSSI C. — The rapid microdetermination of carbon in ¹⁴ C-labelled substances and the filling of counters with carbon dioxide	» 49
7. BUSELLU M. A., D'AGOSTINO O. and ROSSI C. — Techniques for the micro-combustion of ¹⁴ C-labelled substances and the measurement of the activity with carbon dioxide counters	» 57
8. MARINI-BETTOLO G. B. and CARVALHO-FERREIRA P. — The alkaloids of « <i>Aspidospermum longepetiolatum</i> » Kuhlmi	» 68
9. PAOLONI L. and MARINI-BETTOLO G. B. — Research on complexes between carbonyl compounds and metallic halides. - Note VII. The study of the infra-red spectra of complexes of aromatic aldehydes and ketones	» 77
10. STEVE BOCCIARELLI D. and VIOLANTE A. — Morphological modifications of the characteristic pathological cells of the Oberling, Guérin and Guérin myeloma in rats treated with Bis (β -chlorethyl) p-aminophenylalanine	» 111
11. CHIOZZOTTO M., FAILLA G. and GROSS W. — Ionisation measurement of the average Beta-Ray energy of Iodine-131	» 122

12. MILAZZO G. — The Schumann region and its analytical possibilities	page	133
13. JACOBELLI TURI C. and DE GIULI G. — Analytical studies on surface active agents. IV. Differentiation between polyoxyethyleneglycol and polyoxypropyleneglycol	»	140
14. ALBERTI S. and ORTALI V. — A new enrichment medium for « <i>Corynebacterium diphtheriae</i> »	»	146
15. AUREGGI A., ALATI A. and RAVAIOLI L. — Immunological specificity in deep-frozen, lyophilised and irradiated sera	»	153
16. BALDUCCI D. and MANCINI G. — The titration of neutralising poliomyelitis antibodies. A rapid method, reading by microscope	»	171
17. RICCI M. — The effect of the school environment on the diffusion of oxyuriasis	»	176
18. FILIPPONI A. — Two reproductively isolated species under the name of « <i>Macrocheles glaber</i> » (Müller) (Acarina, Mesostigmata)	»	189
19. DI MODICA G. and MASSAGLIA A. — Studies on the composition of catgut	»	203
20. BETTINI S. — A survey of latrodectismus cases occurred during the years from 1938 to 1958 in some Provinces of Italy. - Note I. Province of Viterbo	»	213
21. CAVALLINI D., DE MARCO C., MONDOVÌ B. and TENTORI L. — The metabolism of S ₃₅ -DL-cystine in the rat	»	233
22. CAVALLINI D. and TENTORI L. — On the mechanism of action of agents protecting against radiation. - Note I. The action of tiotaurine in irradiated mice	»	242
23. CAVINA G. and NICOLOSI G. — A chromatographic study of the steroids obtained by chloroform extracts of urine, fractionated between benzene and water	»	245
24. CAVINA G. and CINGOLANI E. — Identification and determinations of cortico-steroids of pharmaceutical interest, using paper chromatography	»	254
25. CAVINA G., ANSELMI E., MENOTTI A. and NATOLI A. — Observations on Brown's method for the determination of urinary oestrogens	»	269
26. VON LORCH L., NEGRI R., ALBERTI S., DE FELIP G. and MONACELLI R. — Comparative experimental studies on new penicillin salts	»	285

27. DORETTI M. — Determination of diazinon residues in olive oil	page 294
28. TOMASELLI S. — Hospital construction in Italy in accordance with the latest views on nursing	» 301
29. CAVALLARO M. and SALVADORI P. — Čerenkov counters for heavy charged particles	» 330
30. VISINTIN B. and CIGNITTI M. — Thermogravimetric study on the mechanism of decarbonation of hydrated magnesium carbonate in an atmosphere of carbon dioxide	» 389
31. CORTELLESSA G. — Protection against stray radiation from electron accelerators up to 1 GeV maximum energy	» 397
32. SACCÀ G. and BENETTI M. P. — Experimental researches on the ripeness and the sexual behaviour of « <i>Musca domestica</i> » L. (Diptera, Muscidae)	» 423
33. SACCÀ G. and GUY Y. — Resistance of behaviour to DDT of « <i>Anopheles labranchiae</i> » in Morocco	» 433
34. RIVOCSECCI L. — Teratological observations on some specimens of « <i>Musca domestica</i> » L. collected in the province of Latina	» 449
35. ADDAMIANO L., BABUDIERI B., BUSSINELLO E., GIUSTI G. and SALVI A. — Research and experimental studies on leptospirosis in birds	» 482
36. PAPACHIRIACU E. — Studies on a possible related antigen between <i>Leptospira</i> and some strains of <i>Shigellae</i>	» 497
37. BALDUCCI D., FELICI A., CASTELLI L., GORI G., MANCINI G., PAULUZZI S., VOZZA R. and PENSO G. — Viruses 1958. A synthesis of the research activities of the Microbiological Laboratories of the Istituto Superiore di Sanità	» 503
38. BABUDIERI B. — Serological studies on the diffusion of leptospiroses in the province of Seville	» 515
39. LILLO L. — Comparative studies of methods of testing diphtheria anatoxin	» 524
40. FELICI A. and VERANI P. — Study of antigenic relationships among different strains of influenza virus type A ₂	» 532
41. EVDOKIMOFF V. — The synthesis of a new heterocyclic compound: pyrazol (2,3: a) quinoxaline. - Note II	» 542
42. CORTELLESSA G. and REALE A. — An electronic apparatus for an experiment on the photoproduction of π^0 mesons from protons	» 550

43. SACCÀ G. — A contribution to the knowledge of « Myzomya » sp. in South Morocco	page	575
44. PALLA L. — The determination of some physical properties of expanded polystyrol	»	581
45. ROSNATI V. and MISITI D. — Researches in the field of 2-oxazolines. - Note I. Synthesis of 2-aryl, 4-methyl, 4-hydroxymethyl, 2-oxazolines	»	603
46. ROSNATI V. and MISITI D. — Researches in the field of 2-oxazolines. - Note II. 2-aryl, 4-methyl, 4-chlorocarbonyloxymethyl, 2-oxazolines	»	610
47. ROSNATI V. and MISITI D. — Researches in the field of 2-oxazolines. - Note III. The synthesis and pharmacological properties of 2-aryl, 4-methyl, 4-carbamylloxymethyl, 2-oxazolines	»	620
48. RICCI M. and GAGLIANO E. — A note on the anti-helminthic action of dithiazine	»	629
49. BETTINI S., BOCCACCI M. and NATALIZI G. — Studies on the toxic effect of some bromo- and chloroacetates to susceptible and « resistant » strains of « Musca domestica » L	»	635
50. RIVOCSECCI L. — A new black-fly from the « Agro pontino » region	»	652
51. BARONCELLI V., BETTO P. and MUNOZ GIL E. — Preparation of uniformly labelled C ¹⁴ -glucose-1-phosphate	»	668
52. ARCHETTI I. — New concepts on viruses	»	672
53. ARCHETTI I. and FELICI A. — The ECHO viruses and their relationship to other enteroviruses	»	680
54. FELICI A., ARCHETTI I., RUSSI F., BELLOCCHI C. and MAZZI F. — Contribution to the study of diseases caused by Coxsackie viruses. Epidemic outbreak with enteric symptoms due to a Coxsackie type B3 virus	»	695
55. DE CARO M. and SAMARANI E. — The antigenicity of insulin: antibodies and haemoagglutination	»	708
56. VISINTIN B. and DE FULVIO S. — The thermal waters of the island of Ischia, particularly the hyper-radioactive waters of Lacco Ameno	»	713
57. VON LORCH L., DE FELIP G., ALBERTI S. and NEGRI R. — The possibility of determining kanamycine in the presence of penicillin or streptomycine	»	744

58. CASSINGENA R., FELICI A. and VILLA L. — A test of the pathogenic power of « <i>Mycobacterium marianum</i> » in guinea pigs following the induction of a macrophagic exudate and the suppression of the natural resistance	page	750
59. SCOGNAMIGLIO W. — Pharmacological action of succinylcholine on the neuromuscular transmission of the chicken and on the effects of anticholinesterases and diethylaminoethyldiphenylpropylacetate (SKF 523A)	»	753
60. CARTA S. and VIVALDI G. — A study of the cholinesterase and phosphatase of the red cell membrane	»	761
61. REVERBERI G. and MANCUSO V. — An electron microscopic study of the components of the egg of « <i>Ciona intestinalis</i> » (Ascidie)	»	783
62. MANCUSO V. — An electron microscopic study of the egg membrane of « <i>Mytilus edulis</i> »	»	793
63. ROCHA e SILVA M. — The biologic signification of Bradykinin as tissue hormone	»	797
64. UGOLINI F., UGOLINI G. and CHAIN E. B. — A modified « rotating drum » fermenter	»	819
65. GUALANDI G., MORISI G., UGOLINI G. and CHAIN E. B. — Continuous measure of dissolved oxygen in fermentations in the presence of microorganisms	»	822
66. GUALANDI G., CALDAROLA E. and CHAIN E. B. — Automatic continuous measure and control of pH by means of steam sterilizable glass electrodes	»	869
67. FRANK M. — An improved automatic scanner for the quantitative evaluation of bidimensional radiochromatograms. With an addendum on its performance by CHAIN E. B., POCCHIARI F. and ROSSI C.	»	893
68. CHAIN E. B., PALADINO S. and ZANCHI F. — Note on the sterilisation of media containing solid organic material in laboratory and pilot plant fermenters	»	906
69. CARTA-DE ANGELI L., VENTURA M. T. and DENTICE DI ACCADIA F. — Simplifications of the hydroxylamine colorimetric method for penicillin determination in fermentation media and finished salts	»	915
70. BELOFF-CHAIN A., CATANZARO R., CHAIN E. B., MASI I. and POCCHIARI F. — The metabolism of glucose in the isolated rat pituitary gland and in brain slices	»	924

71. BELOFF-CHAIN A., CATANZARO R., CHAIN E. B., MASI I. and POCCHIARI F. — The metabolism of pyruvate in rat liver and brain slices	page 936
72. BELOFF-CHAIN A., CATANZARO R., CHAIN E. B. and POCCHIARI F. — Glucose oxidation in rat brown adipose tissue homogenates	» 945
73. BELOFF-CHAIN A., CATANZARO R., CHAIN E. B., LONGI-NOTTI L., MASI I. and POCCHIARI F. — Influence of anaerobiosis on glucose metabolism in the isolated rat diaphragm muscle	» 953
74. CASSINGENA R., ORTALI A. V., VILLA L. and MILAZZO M. — « <i>Micrococcus violagabriellae</i> » (Castellani, 1955)	» 964
75. VELLA L., ZAMPIERI A. and MERUCCI P. — Inhibition of the haemolytic action of O-streptolysin by cardiolipin	» 973
76. ZAMPIERI A., VELLA L. and MERUCCI P. — Chemically defined purine and pyrimidine medium for the growth of haemolytic streptococci (group A)	» 983
ISTITUTO SUPERIORE DI SANITA' - Outline of its history and activities (part XII)	» 1
77. CAVINA G., CINGOLANI E. and TENTORI L. — The determination of steroids in extracts of the supra-renal cortex using paper chromatography	» 993
78. GALAMINI A. and MAGGIORE L. — The action of antibiotics and vitamin B ₁₂ on the growth and metamorphosis of <i>Bufo Vulgaris</i> tadpoles	» 1003
79. ANSELMI S., BONIFORTI L. and MONACELLI R. — Chromatographic analysis of fatty substances in vapor phase. - Note II. Method and chromatograms of some vegetable and animal oils and fats	» 1016
80. CIGNITTI M. and PAOLONI L. — Tautomeric forms of the oxo-derivatives of 1-3-5 triazine - Note I. Infrared spectra	» 1037
81. COTTA-RAMUSINO F., INTONTI R. and STACCHINI A. — Quantitative determination and separation of Kanamycin from other antibiotics	» 1048
82. LA PAROLA G. and JACOBELLI-TURI C. — The 6-benzoyl-methyl-sulphoxytriazine of benzoyl-piruvic acid monothiosemicarbazone	» 1058
83. MILAZZO G., CASINOVÌ C. G. and CIASCA M. A. — Irradiated benzo-[a]-pyrene - III. Irradiation in the presence of oxygen	» 1065

84. CASINOVI C. G., GARBARINO J. A. and MARINI-BETTOLO G. B. — The structure of the alkaloid of « <i>Skytanthus acutus</i> » Meyen	page 1073
85. QUINTILIANI M., BOCCACCI M. and TENTORI L. — Incorporation of P ³² into the deoxyribonucleic acid of some radiosensitive organs in rats treated with iodoacetic acid and X-rays	» 1081
86. LONGO V. G., SILVESTRINI B. and BOVET D. — An investigation on the convulsant properties of 3-7-diphenyl-1-3-diazadamantan-6-ol (1757 I. S.)	» 1095
87. MARINI-BETTOLO G. B., LANDI-VITTORY R., JORIO M. A., BOVET-NITTI F. and ORSINGER O. — Researches in the benzodioxane series - Note XIX. Hydrazine derivatives of 1,4-benzodioxane. Synthesis and pharmacological properties	» 1110
88. FRANK M. — An electronic recorder of impulses and its application to radiochromatography	» 1128
89. AGENO M. — Some considerations on the shape of viruses	» 1149
90. ARCHETTI I., STEVE-BOCCIARELLI D. and TOSCHI G. — Electromicroscopic study of the development and structure of a simian enteric virus	» 1161
91. CORTELLESA G., REALE A. and SALVADORI P. — Studies on proton structure using differential collision sections for the individual photoproduction of π^0 mesons and for Compton effect	» 1177
92. SELLERIO U. — A new refrigerating compressor	» 1198
93. UGOLINI F. — Observations and experiments on plumb- ing with armoured polyester resins	» 1211
94. CASTELNUOVO G., GAUDIANO A., MORELLINI M., PENSO G. and ROSSI C. — The antigens of mycobacteria	» 1222
95. COLLOTTI-FERRETTI C. — The isolation in continous culture of a strain of cells derived from human amnion (Amnion I.S.S., 1960)	» 1234
96. FELICI A. and VOZZA R. — Virological studies on traco- ma. Preliminary data	» 1242
97. BETTINI S. and FINIZIO E. — Survey on the cases of latrodectismus occurred during the years from 1938 to 1958 in some Provinces of Italy - Note II. The Province of Grosseto	» 1276

98. CORRADETTI A., NERI I. and SCANGA M. — « Plasmodium praecox » var. « matutinum » from « Turdus iliacus » in Italy and its distinction from « Plasmodium praecox » as a separate species: « Plasmodium matutinum » Huff, 1937 page 1288
99. RIVOSECCHI L. — A contribution to the knowledge of Italian Simulides (« Diptera Nematocera, Simuliidae »): collection of larvae and pupae in the province of Latina » 1300
100. MAZZARACCHIO V., ZAVAGLI V., ORFEI Z., FONTANELLI E., D'AMORE A., RAVAIOLI L. and CASTAGNOLI B. — Comparative studies of the immune reactions induced in cattle by the inoculation of mono- bi- and tri-valent foot and mouth disease vaccines » 1338
101. ZAVAGLI V., MAZZARACCHIO V., FONTANELLI E., ORFEI Z., D'AMORE A., RAVAIOLI L. and CASTAGNOLI B. — The efficacy of a foot and mouth disease vaccine, produced with virus grown on single layer kidney cells, in the prophylaxis of epizootic bovine foot and mouth disease » 1350
102. CHAIN E. B. — Studies on brain metabolism » 1357
103. BALLIO A. and RUSSI S. — The structure of galactosyl-lactose, a trisaccharide produced from lactose by « Penicillium chrysogenum » Thom » 1375
104. FRATELLO B. and SERMONTI G. — The mechanism of mitotic segregation in « Aspergillus nidulans » » 1384
-
