

GENERAL INDEX

- 1 - E. VACINO. — Equipment for testing and checking up water-tightness of joints in drinking water pîpes necessitated by modern exigencies in the repair or rebuilding of aqueducts damaged by the war pag. 5
- 2 - S. TOMASELLI. — Some general suggestions for the planning of pavilions for infectious diseases » 19
- 3 - N. GANDOLFO. — The separation of iron and aluminium » 57
- 4 - N. GANDOLFO. — Extraction and determination of D.D.T. in the organs of animals » 65
- 5 - E. MOSNA and M. ALESSANDRINI. — Anopheles control with D.D.T. in the province of Latina in 1948 and 1949 . . . » 70
- 6 - E. MOSNA. — Control with « Okta-Klor » of DDT resistant flies » 83
- 7 - S. BETTINI. — A study of the action of parasiticide products and their toxicity to man and animals . . . » 91
- 8 - A. FILIPPONI. — Studies on Stylocephalidae (Sporozoa): III. The fecundity of the parasites and the degree of infection of their hosts » 103
- 9 - L. CAVACEPPI. — Revision of the systematic classification of the Italian tick Note I » 120
- 10 - F. SCANGA. — On the method of reproduction in « Pasteurella pestis » » 123
- 11 - B. BABUDIERI. — Leptospires and leptospirosis in Italy . » 133
- 12 - V. CILLI, F. MAZZARACCHIO, C. ROETTI. — The cases of bovine plague in the zoological garden in Rome . . . » 153
- 13 - R. NEGRI. — Morphologic alterations in germe sensitive to « sativina » during the observation under a normal or electronic microscope » 160
- 14 - R. NEGRI and L. RAVAIOLI. — Antigenic action of bacteria treated with antibiotics and formol respectively in the production of sera agglutinating V. comma » 171
- 15 - R. NEGRI and L. RAVAIOLI. — Comparative in vitro studies of the action of terramycin and some other of the newer antibiotics against gram-positive and gram-negative bacteria » 179

- 16 - R. NEGRI, F. MUNTONI, A. D'AMORE. — Research into the antibiotic action of senfols extracted from various types of seeds of « *Raphanus sativus* L., Var. *Radicula Pers.* » against numerous germs including two varieties of tubercular bacilli (Cow 18 and Cow 70) pag. 186
- 17 - L. TENTORI and G. VIVALDI. — On experimental anemia in rats suffering from deficiency of folic acid and on the therapeutic activity of some antianemic substances » 194
- 18 - L. TENTORI and G. VIVALDI. — Mortal syndrome characterized by symptoms in the nervous system of rats kept on highly purified diet containing sulphonamidoguanidine. Note II » 216
- 19 - G. PRUNER. — The application of ceriometry in biology. - I. Volumetric determination of Vitamin B₁ » 222
- 20 - M. AGENO. — About some thermodynamic concepts and the limits of their application » 233
- 21 - A. FILIPPONI. — Studies on Stylocephalidae (Sporozoa): IV. Description of a new stylocephalide (*Stylocephalus mucronatus* n.sp.) and differential diagnosis of *Stylocephalus gigas* and *S. reticulatus* » 247
- 22 - M. RICCI. — Biological notes concerning the « *Blatta orientalis* L. » » 259
- 23 - A. CORRADETTI and F. VEROLINI. — Studies on the relapses of the infections by « *P. malariae* » and « *P. cynomolgy* » introduced via blood » 271
- 24 - O. MARIANI MARELLI. — Alterations due to heat in dolantine solutions » 282
- 25 - T. LUCHERINI and E. CECCHI. — The problem of fibrositis in the framework of rheumatic diseases » 287
- 26 - R. CATANZARO and M. QUINTILIANI. — The problem of the functional classification of the thymus » 309
- 27 - A. FILIPPONI. — On a gregarine (*Gregarina larvarum* n.sp.) found in larvae of « *Blaps gibba* » obtained by breeding » 361
- 28 - B. BABUDIERI. — Researches on Q-fever in Italy . . » 389
- 29 - B. BABUDIERI and R. SUZZI-VALLI. — Cases of Q-fever in the Republic of San Marino » 430
- 30 - M. CHIOZZOTTO and R. QUERZOLI. — Improvements introduced to the generator-voltmeter of the 1100 kW plant . » 460
- 31 - M. AGENO. — Some considerations of the phaenomenon of scintillation in organic crystals. » 467

32 - V. ROSNATI and D. BOVET. — Researches on synthetic curare compounds. Note VI. a) Variations in the structure of succinylcholine; b) poliquaternary derivatives	pag. 473
33 - V. ROSNATI. — Researches on synthetic curare compounds. V.th Note. Diesters of methyl-choline	» 496
34 - M. AGENO - M. CHIOZZOTTO - R. QUERZOLI. — New disposition of the 1100 kW accelerator of the Ist. Sup. Sanità	» 509
35 - B. BABUDIERI. — Systematic position of <i>Leptospira</i> hyos S. and R.	» 530
36 - B. BABUDIERI and L. RAVAIOLI. — The cutireaction in the diagnosis of Q-fever in the guinea-pig.	» 532
37 - L. RAVAIOLI and B. TESTI. — Mercury poisoning in young bovines	» 540
38 - M. CHIOZZOTTO. — Automatic pressure control device in a high vacuum plant	» 553
39 - E. MOSNA. — On the resistance of the fly against chlordane	» 563
40 - A. CORRADETTI. — Particular immunity phenomena in the infection by <i>Plasmodium Berghei</i>	» 574
41 - A. CORRADETTI and F. VEROLINI. — Relations between <i>Plasmodium Berghei</i> and cells of the red series of the white rat during the first attack	» 584
42 - I. NERI. — Influence of the temperature upon the action of some insecticides, brought into contact with the fly	» 606
43 - L. CAVACEPPI. — Duration of the endohistiocytic cycle established by means of repeated biopsies of the cerebral cortex	» 612
44 - M. E. ALESSANDRINI and V. AMORMINO. — The determination of DDT in flour	» 619
45 - S. ANSELMI and A. CESARI. — The determination of sesam oil in margarine and similar coloured fatty substances	» 624
46 - F. BUCCI. — Reactions between basic nitrites and some organic amides. Preparation of basic-cyanates	» 639
47 - A. CALÓ and O. MARIANI MARELLI. — New salts of the undecylenic acid	» 647
48 - N. GANDOLFO. — Determination of sulphates in the presence of iron	» 654
49 - R. INTONTI and R. MONACELLI. — Procain and chinin-salts of benzylpenicillin	» 657
50 - M. MARZADRO. — A selective determination of different forms of nitrogen with the Kjeldahl micromethod	» 668

51 - G. MILAZZO and L. PAOLONI. — Steam-tension, latent heat and molecular weight of selenofene	pag. 673
52 - B. VISINTIN. — Adrenalin produced from adrenalone by means of catalytic reduction with Raney's Ni	» 686
53 - S. CHIAVARELLI. — On chloromethylation of aliphatic arylamines	» 692
54 - F. FUSCO, V. ROSNATI, F. BOVET NITTI, D. BOVET. — Some considerations on the topic: chemical structure and activity of synthetic curare compounds	» 697
55 - E. KNÜSLI. — Synthesis of cardiogenic p-aminodiphenylsulfone-derivates	» 717
56 - A. MARIANI. — Alterations of the D ₂ Vitamin as shown by spectrophotometric measurements	» 725
57 - A. MARIANI, S. GUARINO, O. MARIANI MARELLI. — On colorimetric determination of morphia in opium	» 733
58 - F. TOFFOLI. — Rhyptographic analysis. Note III	» 742
59 - F. TOFFOLI and V. EVDOKIMOFF. — On the constitution of arylaminoformaldehydobisulphates	» 756
60 - A. BELOFF CHAIN, D. BOVET, E. B. CHAIN, F. POCCHIARI. — Metabolism of glucose-1-phosphate in normal and in diabetic rabbits	» 763
61 - L. TENTORI and G. VIVALDI. — Therapeutic action of xanthopterin-p-aminobenzoilglutamic acid on experimental macrocytic anaemia in rats	» 768
62 - M. AGENO and R. QUERZOLI. — On the scintillation mechanism in organic crystals	» 779
63 - R. QUERZOLI. — An integrating device for high intensity ionic currents	» 792
64 - A. FILIPPONI. — Contribution to the knowledge available concerning « Gigaductus elongatus (Gregarinida, Gigaductidae) »	» 800
65 - G. RUSSO. — Variations in the age distribution of the death rate from poliomyelitis in Italy	» 824
66 - F. GRAZIOSI and G. RUSSO. — Electronic microscope study of an active bacteriophage on « B. megatherium »	» 839
67 - B. STRAMPELLI and A. POSANELLI. — Aqueo-vitreous humour and retinal uvea under electronic microscope	» 845
68 - G. PENSO, V. ORTALI, A. GAUDIANO, M. PRINCIVALLE, L. VELLA, A. ZAMPIERI. — A study and research on Mycobacteria VII - « The Mycobacterium Phlei ». (Lehmann and Neumann, 1899, pro parte)	» 855

- 69 - I. ARCHETTI and F. L. HORSFALLI Jr. — Persistent antigenic variations in influenza virus of type A after incomplete neutralization in ovum with immune serum . . . pag. 909
- 70 - G. SACCÀ. — Experiments in interbreeding between «*Musca domestica*» L., «*Musca vicina*» Mq., «*Musca nebulo*» F. » 937
- 71 - L. MEZZETTI and R. QUERZOLI. — On statistical analysis of the results of measurements obtained with Geiger counters » 944
- 72 - U. SELLERIO. — Maximum economy criterion in planning of silos for the preservation of dry ice . . . » 951
- 73 - A. CORRADETTI and L. CAVACEPPI. — Modifications in the course of immunologic process in infection by «*P. gallinaceum*» and a demonstration of the existence of cellular immunity found in endotheliums but absent from the blood cells. . . . » 960
- 74 - A. FILIPPONI. — Differential growth in trophozoites of «*Gregarina dimorpha*» (Sporozoa) . . . » 973
- 75 - A. and M. GALAMINI. — On the adrenocorticotrophic action exercised by extract from surrenelectomized rats in hypophysectomized rats . . . » 994
- 76 - F. MOLÈ. — Morphologic observations of poliomyelitis virus by means of the electron microscope . . . » 1000
- 77 - A. VERCILLO. — Lecithinic phosphorus in macaroni prepared with eggs. . . . » 1005
- 78 - B. CASTAGNOLI. — Aphtha fever and pasteurellosis in swine. » 1019
- 79 - A. CASTAGNOLI. — Investigations on the possibility of eliminating plague virus in sero-infected swine. . . » 1028
- 80 - P. FANTONI. — Evolution of recording miniature radiography and the relative application of electronic clock, photoelectric cell and ionization chamber. . . » 1036
