

GENERAL INDEX

1 - T. LUCHERINI and E. CECCHI. — Allergic tonsillitis. - Experimental documentation of relationships between tonsils and hypersensitives conditions	pag. 5
2 - B. CASTAGNOLI. — Scabies caused by Demodex in the wild-boar	» 63
3 - I. ARCHETTI. — The action of penicillin in vitro on Leptospira	» 75
4 - B. MARINI. — Penicillin in Weil's disease	» 82
5 - G. GRAMICCIA and G. SACCÀ. — Report on infection by P. gallinaceum in chicks. Consideration of the biological significance of the endohistiocytic cycle after blood inoculation	» 94
6 - G. RITA and G. GRAMICCIA. — Researches on chicken embryos with Plasmodium Gallinaceum. - I.	» 103
7 - S. BETTINI and L. TENTORI. — Insects and vitamins. I. A review. - II. Vitamins A and E in Anopheles labran- chiaie var. atroparvus	» 109
8 - G. SACCÀ. — On the existence of DDT-resistant house flies. - Introductory report	» 123
9 - E. MOSNA. — On a biological characteristic of Culex pipiens autogenicus of Latina	» 125
10 - D. BOCCIARELLI and G. C. TRABACCHI. — Shadow technique in electron microscopy	» 127
11 - C. TOFFOLI. — A molecular combination of copper, thiosinamine and antipyrine	» 132
12 - C. TOFFOLI and V. EVDOKIMOFF. — Calibration of Beckmann apparatus in cryoscopic determination of aqueous solutions	» 135
13 - N. GANDOLFO. — Detection and quantitative determination of arsenic. - Destruction of the organic substance, separation of the element and its analytical evaluation	» 140
14 - N. GANDOLFO. — On the reduction of arsenates	» 187
15 - N. GANDOLFO. — Antireflux distillation head with siphon tube	» 199

16 - G. PRUNER. — A report of laboratory technique. - Apparatus for drawing liquids from containers by means of pressure	pag.	201
17 - G. RUSSO. — The morbidity for infectious and transmissible diseases in Italy in 1941	»	208
18 - E. BIANCHI. — Nutrition and its present developments	»	279
19 - T. LUCHERINI and A. PALA. — Experimental allergic myo-endocarditis. - Inhibitory influence of experimental pyrexia on the appearance of the histo-pathological picture of hyperergic carditic reactions	»	303
20 - A. PALA. — Antiallergic action of experimental pyrexia on the phenomena of serum hypersensitiveness in the rabbit. - (General hypersensitiveness: anaphylactic shock and local cutaneous hypersensitiveness: Arthus phenomenon)	»	333
21 - A. PALA. — Inhibition of myo-endocardiac lesions from serum hypersensitiveness in the rabbit by administration of sodium salicylate	»	351
22 - G. MILAZZO. — Absorption spectra of heterocyclic compounds. - III. The ultraviolet absorption spectrum of thiophene	»	372
23 - C. TOFFOLI. — Pyrogenic substances in injectable liquids	»	394
24 - F. MUNTONI. — The interferences in the reaction between Aluminium and the ammonium salt of aurin-tricarboxylic acid. - II. A method of chemical microscopy for discriminating between Al and Be in the precipitate obtained in the presence of both	»	405
25 - F. DI STEFANO and F. L. SIMONCELLI. — Influence of animal parasites on the principal constituents of flour. - I. Behaviour of the ashes and cellulose	»	415
26 - E. MOSNA. — DDT-resistant <i>Culex pipiens</i> autogenicus and their control by Octa-Klor and Benzene Hexachloride	»	425
27 - L. LA FACE. — Some special features of the pretarsus of <i>Musca domestica</i>	»	433
28 - I. NERI. — Morphological observations on the pretarsus of Culicidae	»	438
29 - F. VEROLINI. — The mechanism of action of DDT on the pupae of Culicidae	»	442

30 - S. BETTINI and E. LAGRANGE. — Histological control on filariae of the antifilarian action of some drugs	pag.	450
32 - L. LILLO and C. PALMIERI. — The diffusion of diphtheria in Italy in the last ten years. - I.	»	460
33 - L. TENTORI. — Spleen and metabolism	»	475
34 - L. TENTORI. — The metabolism of nitrogen during the phase of reconstruction after fasting in normal and in splenectomized rats	»	497
35 - R. RISTORI and L. TENTORI. — Time of survival after suprarenalectomy of splenectomized rats	»	509
36 - M. E. ALESSANDRINI. — A rapid method for detecting small quantities of DDT on sprayed surfaces. - Introductory Note	»	518
37 - M. E. ALESSANDRINI. — A rapid method for detection and quantitative determination of small quantities of DDT on sprayed surfaces	»	521
38 - L. TENTORI and G. VIVALDI. — Pteroylglutamic acid and its conjugated compounds	»	531
39 - A. D'AMORE. — Epithelioma of probable pancreatic origin in a cat	»	557
40 - C. CARACI and V. PIETROGRANDE. — A modification « in the cold » of the Wassermann reaction	»	566
41 - B. BABUDIARI. — A new method for making bacterial preparations to be observed under the electron microscope	»	572
42 - B. BABUDIARI. — Antibacterial action of certain antibiotics studied with the electron microscope	»	577
43 - F. SCANGA. — The falsification of streptomycin and a rapid method for ascertaining its genuineness	»	599
44 - F. SCANGA. — Toxicity, dosage and main therapeutical uses of streptomycin in tuberculosis	»	620
45 - F. SCANGA. — A monographic study on antibiotics	»	655
46 - R. INTONTI and M. GARGIULO. — Bomb calorimeter for halogen determination in organic substances	»	731
47 - F. BUCCI. — The iodine number of wine vinegars	»	743
48 - F. MUNTONI. — On the method of calculating the moisture of bread	»	755

49 - A. MISSIROLI, E. MOSNA and M. ALESSANDRINI. — Anopheline control in the Agro Pontino. Report for the years 1945 to 1947	pag. 759
50 - D. BOCCIARELLI and G. C. TRABACCHI. — Apparatus improvements for shadow technique in electron microscopy	» 791
51 - D. BOCCIARELLI and G. C. TRABACCHI. — Modification to the electron microscope of the Istituto Superiore di Sanità	» 794
52 - G. MILAZZO. — Microanalysis of gold	» 801
53 - S. BETTINI. — Some cases of malaria treated with Paludrine	» 816
54 - S. BETTINI. — The new insecticides	» 821
55 - S. BETTINI and B. BARACCHINI. — First results of the action against houseflies by means of Octa-Klor and Gammahexane	» 841
56 - G. GRAMICCIA. — The recent discoveries relative to some forms of development of the sporozoites of Plasmodium cynomolgi and Plasmodium vivax	» 849
57 - I. NERI. — The degree of specificity of the host presented by Plasmodium elongatum	» 858
58 - R. ANGELICO and M. GALAMINI LIGORI. — Pancreatic function. - I. Absorption of lipides and lipide content of the liver in relation to the pancreatic function	» 865
59 - G. RUSSO. — The morbidity from infectious and transmissible diseases in Italy in 1942	» 874
60 - F. SCANGA. — Penicillin retard. - The various agents by which the excretion of penicillin can be retarded or its concentration in the blood prolonged	» 952
61 - F. SCANGA. — The action of streptomycin, sulphone and various disinfectants on micro-organisms, observed with the electron microscope	» 970
62 - F. SCANGA. — The action of streptomycin on germs observed with the electron microscope by the shadow technique	» 980
63 - R. NEGRI. — An antibiotic substance contained in the aqueous extract of Raphanus Sativus L, var. radicula Pers., particularly active « in vitro » against V. cholerae and other gram-negative bacteria. - Preliminary paper	» 990

- 64 - P. CATTANEO and T. MAGGIORA-VERGANO. — The lysozyme content of colostrum of first milk, of meconium and of the faeces of the new born child fed at the breast and of the child brought up with a mixed feeding and on tre bottle. Experimental reseaches pag. 994
- 65 - S. ORBAN. — Purified and precipitated vaccines against cholera and against typhus, paratyphus and cholera » 1029
- 66 - B. BABUDIERI. — Researches of electron microscopy. - A study on the genus *Leptospira* » 1046
- 67 - B. BABUDIERI. — Observation on the spirochetes of recurrent fever, studied with the electron microscope » 1067
- 68 - R. INTONTI and M. GARGIULO. — A method of indirect analysis of halogens » 1071
- 69 - G. MILAZZO. — Oxidising power and symbol r » 1077
- 70 - D. RAFFAELI. — Some physico-chemical characters of of the water bodies collected in province of Latina in relation to the constitution of the soil » 1086
- 71 - G. GRAMICCIA. — Researches on the infection of chicken embryos with *Plasmodium gallinaceum*. II, » 1110
- 72 - E. LAGRANGE and S. BETTINI. — Description of a new filaria, *Litmosa Ottavianii*, Lagrange, Bettini, 1948, parasite of bats » 1120
- 73 - S. BETTINI. — A contribution to the study of DDT-resistance in house-flies » 1131
- 74 - M. RICCI. — The action of DDT on *Blatta orientalis* » 1137
- 75 - G. RUSSO. — Male sex hormone and Ehrlich's adenocarcinoma » 1166
- 76 - A. MARIANI and L. TENTORI. — The fluorimetric determination of oestrogenic substances » 1176
- 77 - G. PENSO. — Confluent-growth threshold and polycolonies » 1183
- 78 - L. LILLO, F. SCANGA and N. GANDOLFO. — The absorption of penicillin in hydro-haematic vehicle » 1194
- B. BABUDIERI. — Streptomycin-Sulphone association. - I. Researches in vitro » 1210

80 - B. BABUDIERI. — Notes on the technique of electron microscopy. - II. Fixation of bacterial preparations	pag.	1225
81 - F. DI RAIMONDO and V. ORTALI. — The antibiotic action of streptomycin associated with various substances. - I.	»	1230
82 - F. DI RAIMONDO and V. ORTALI. — The antibiotic action of streptomycin associated with various substances. - II.	»	1238
83 - F. DI RAIMONDO and V. ORTALI. — The antibiotic action of streptomycin associated with various substances. - III.	»	1245
84 - R. ANGELICO and M. LIGORI. — Pancreatic function. - II. Diet abundant in lipides and toxicity of alloxan	»	1248
85 - N. GANDOLFO. — Detection and determination of small quantities of sulphur dioxide	»	1268
86 - C. N. HINSHELWOOD. — Applications of chemical kinetics to the problems of bacterial growth	»	1275
87 - L. LA FACE. — The house fly, its relation to some diseases and possible existence of several races within the species	»	1287
88 - E. MOSNA. — The insecticidal power of DDT in aqueous suspension	»	1346
89 - G. SACCÀ. — Observations on a population of flies after treatment with DDT and Chlorodane	»	1354
90 - I. NERI. — Observations on the difference in sensitiveness of <i>Musca domestica</i> after treatment with DDT	»	1362
91 - O. D'AGOSTINO. — Manganese ores in Latium	»	1367
92 - G. MILAZZO. — Automatic regulator of temperature and other magnitudes measurable by means of needle-instruments	»	1386
93 - P. ZANNELLI. — Blood factors and transfusion	»	1391
94 - T. LUCHERINI and E. CECCHI. — Erythema nodosum and tonsils. - Histopathological researches on the behaviour of the tonsils in conditions of spontaneous hypersensitiveness	»	1444
95 - M. AGENO and M. CHIOZZOTTO. — The penetration of 17 MeV electrons	»	1472
96 - A. BARONE. — Direct reading devices for measuring the angular velocity of ultracentrifuges	»	1489

- 97 - G. PENSO, C. CATTANEO, M. MORELLINI and V. ORTALI.
— Studies and researches on mycobacteria. - I. A preliminary survey and lists of collection strains and the new isolated strains pag. 1496
- 98 - G. PENSO. — A test chamber for the control of disinfectants » 1520
- 99 - V. MAZZARACCHIO. — The survival of lactic ferments in the digestive system » 1528
