AGENO M. and CHIOZZOTTO M. — The penetration of 17 MeV electrons . . . . .	pag. 1472
ALESSANDRINI M. E. — A rapid method for detecting small quantities of DDT on sprayed surfaces. - Introductory Note . . . . .	» 518
ALESSANDRINI M. E. — A rapid method for detection and quantitative determination of small quantities of DDT on sprayed surfaces . . . . .	» 521
ALESSANDRINI M. E., MISSIROLI A. and MOSNA E. — (see Missiroli A.) . . . . .	» 759
ANGELICO R. and GALAMINI LIGORI M. — Pancreatic function. - I. Absorption of lipides and lipide content of the liver in relation to the pancreatic function . . . . .	» 865
ANGELICO R. and GALAMINI LIGORI M. — Pancreatic function. - II. Diet abundant in lipides and toxicity of alloxan . . . . .	» 1248
ARCHETTI I. — The action of penicillin in vitro on <i>Leptospira</i> . . . . .	» 75
BABUDIERI B. — A new method for making bacterial preparations to be observed under the electron microscope . . . . .	» 572
BABUDIERI B. — Antibacterial action of certain antibiotics studied with the electron microscope . . . . .	» 577
BABUDIERI B. — Researches of electron microscopy. - A study on the genus <i>Leptospira</i> . . . . .	» 1046
BABUDIERI B. — Observations on the spirochetes of recurrent fever, studied with the electron microscope . . . . .	» 1067
BABUDIERI B. — Streptomycin-Sulphone association. - I. Researches in vitro . . . . .	» 1210
BABUDIERI B. — Notes on the technique of electron microscopy. - II. Fixation of bacterial preparations . . . . .	» 1225
BARACHINI B. and BETTINI S. — (see Bettini S.) . . . . .	» 841
BARONE A. — Direct reading devices for measuring the angular velocity of ultracentrifuges . . . . .	» 1489

BETTINI S. — Some cases of malaria treated with Paludrine	pag.	816
BETTINI S. — The new insecticides . . . . .	»	821
BETTINI S. and BARACHINI B. — First results of the action against houseflies by means of Octa-Klor and Gamma- hexane . . . . .	»	841
BETTINI S. — A contribution to the study of DDT-resistance in house-flies . . . . .	»	1131
BETTINI S. and LAGRANGE E. — Histological control on fila- riae of the antifilarian action of some drugs . . . . .	»	450
BETTINI S. and LAGRANGE E. — (see Lagrange E.) . . . . .	»	1120
BETTINI S. and TENTORI L. — Insects and vitamins. - I. A synthetic review. - II. Vitamins A and E in <i>Anopheles</i> <i>labranchiae</i> var. <i>atroparvus</i> . . . . .	»	109
BIANCHI E. — Nutrition and its present developments . . . . .	»	279
BOCCIARELLI D. and TRABACCHI G. C. — Improvements to the apparatus for shadow technique in electron microscopy . . . . .	»	791
BOCCIARELLI D. and TRABACCHI G. C. — A modification to the electron microscope of the Istituto Superiore di Sanità . . . . .	»	794
BOCCIARELLI D. and TRABACCHI G. C. — Shadow technique in electron microscopy . . . . .	»	127
BUCCI F. — The iodine number of wine vinegars . . . . .	»	743
CASTAGNOLI B. — Scabies caused by <i>Demodex</i> in the wild-boar . . . . .	»	63
CATTANEO P. and MAGGIORA-VERGANO T. — The lysozyme content of colostrum, of first milk, of meconium and of the faeces of the new born child fed at the breast and of the child brought up with a mixed feeding and on the bottle. Experimental researches . . . . .	»	994
CATTANEO C., PENSO G., MORELLINI M. and ORTALI V. — (see Penso G.) . . . . .	»	1496
CECCHI E. and LUCHERINI T. — (see Lucherini T.) . . . . .	»	5
CECCHI E. and LUCHERINI T. — (see Lucherini T.) . . . . .	»	1444
CHIOZZOTTO M. and AGENO M. — (see Ageno M.) . . . . .	»	1472
D'AGOSTINO O. — Manganese ores in Latium . . . . .	»	1367
D'AMORE A. — Epithelioma of probable pancreatic origin in a cat . . . . .	»	557

DI RAIMONDO F. and ORTALI V. — The antibiotic action of streptomycin associated with various substances. - I. . . . .	pag. 1230
DI RAIMONDO F. and ORTALI V. — The antibiotic action of streptomycin associated with various substances. - II. . . . .	» 1238
DI RAIMONDO F. and ORTALI V. — The antibiotic action of streptomycin associated with various substances. - III. . . . .	» 1245
D. STEFANO F. and SIMONCELLI F. L. — Influence of animal parasites on the principal constituents of flour. - I. Behaviour of the ashes and cellulosa . . . . .	» 415
