

TABLE OF CONTENTS

1. SCHMIDT C. F. — Psychopharmacology	page	5
2. MANN T. — Biochemical aspects of reproduction	»	16
3. PAULING L. C. — Abnormal hemoglobin molecules in relation to disease	»	30
4. KREBS H. A. — The control of metabolic processes	»	49
5. TAUSSIG H. B. — The Blalock-Taussig operation	»	61
6. MERSKEY C. — The effects of the feeding of fat on blood coagulation	»	74
7. TRABACCHI G. C. — Photograph of colours	»	95
8. SACCÁ G. and BENETTI M. P. — Environmental and physiological factors of insemination in « <i>Musca domestica</i> » L. and in its subspecies	»	110
9. CORBO S. and RICCI M. — Infantile growing and intestinal parasitism	»	120
10. SELLERIO U. — Absorption-Compression refrigeration units. Description of a unit of this category, functioning with a petroleum-freon mixture	»	126
11. MARIANI A. and VICARI C. — The chromatographic separation of the alpha, beta, gamma and delta tocopherols	»	160
12. FELICI A. and ARCHETTI I. — Researches on the etiology of some outbreaks of aseptic meningitis in North-Central Italy	»	167
13. VON LORCH L., DE FELIP G. and EL ZOFRI M. — Morphological study of some lactobacilli and their antibiotic-resistant mutants	»	174
14. DE FELIP G. and VON LORCH L. — Immunological studies of several lactobacilli and of their antibiotic resistant artificial mutants	»	181
15. BALDUCCI D., CASTELLI L., FELICI A., MANCINI G. and MIDULLA M. — Research on the etiology of virus infantile meningo-neurassitis	»	189

16. TOMASELLI S. — The influence of semi-industrial criteria on the constructional lay-out of public slaughter houses	page	203
17. FRANK M. — Note on a circuit for the comparison of potentials	»	238
18. RAVAIOLI L., ORFEI Z., D'AMORE A., MAZZARACCHIO V. and CASTAGNOLI B. — Foot and mouth disease virus on tissue culture « in vitro ». - III. Neutralization with antisera « in vitro » and complement fixation activities of the viruses A ₄ , O, C at different development times	»	252
19. D'AMORE A., ORFEI Z., RAVAIOLI L., MAZZARACCHIO V. and CASTAGNOLI B. — Foot and mouth disease virus on tissue culture « in vitro ». - IV. Interference test between virus (A ₄) attenuated by heat or by formaldehyde and homologous active virus	»	258
20. ORFEI Z., RAVAIOLI L., D'AMORE A., MAZZARACCHIO V. and CASTAGNOLI B. — Foot and mouth disease virus on tissue culture « in vitro ». - V. Inhibition between type O and type A ₄ of foot and mouth disease virus	»	262
21. RIVOSECCHI L. — Preliminary observations on insemination in « <i>Musca domestica</i> »	»	267
22. BETTINI S. and BOCCACCI M. — The mode of toxic action of iodo-, bromo- and chloroacetic acid on insects and the insecticidal properties of some of their derivatives	»	278
23. BOCCACCI M. — Determination of vitamin D in presence of vitamin A by reversed phase paper chromatography.	»	296
24. COTTA-RAMUSINO F. — A method for measuring vaseline oil in toasted coffee	»	315
25. MARINI-BETTOLO G. B. and COCH FRUGONI J. A. — The effect of pH on the paper electrophoretic separation of alkaloids	»	319
26. SILVESTRI B. and KOHN R. — The action of meprobamate on the cerebral electric activity of the rabbit and on the alarm and flight reactions caused by an electric stimulation of the hypothalamic nuclei	»	328
27. VISINTIN B. and MONTERIOLO S. — The spectrophotometric determination of fluorine with particular reference to water	»	338

28. DI VITTORIO V. — The synthesis and properties of several 4-6-dimethoxy-aurones	page 418
29. DE CARO M. and SAMARANI E. — The action of oleandomycin and isonicotinic acid hydrazide on some strains of « H. Pertussis »	» 433
30. PRINCIVALLE M. and VON LORCH L. — The synthesis of several vitamins of the B group by artificial antibiotic-resistant strains of bacteria	» 437
31. BOCCACCI M., NATALIZI G. and BETTINI S. — Differences in the behaviour of the muscular tissue of vertebrates and insects to the action of pyruvate during iodoacetate poisoning	» 443
32. RIVOSECCHI L. — The generative organs of « Musca domestica »	» 458
33. SALOMONE S. — Factors involved in the thermal insulation of buildings	» 489
34. PENSO G. — The kinetic of phage lysis	» 511
35. NEGRI R., VON LORCH L., DE FELIP G. and ALBERTI S. — Studies on the intestinal establishment of several species of bacteria	» 518
36. CORRADETTI A. and VEROLINI F. — The action of splenectomy in infections by « Plasmodium rouxi » in canaries	» 529
37. CERVONE L. — On the presence of « Culex (Neoculex) martinii » Medschid in the province of Latina and help to the knowledge of the species	» 539
38. NICOLI M. — Systems for treating and collecting refuse	» 552
39. NICOLI M. — Complete tables for the determination of external sunlight exposure using orientation diagrams	» 604
40. TOMASELLI S. — An examination of basic problems in the initial planning of hospitals	» 611
41. PALLA L. and LORETI F. — Determinations of resistivity and electrical measurements on a soil sample	» 662
42. ANGELICO R. and QUINTILIANI M. — Researches on the identity of corticosteroids synthetised « in vitro » from rat adrenal cortex	» 671
43. TOSCHI G. and BETTINI S. — The protein composition of insect muscles. - An electrophoretic study	» 678

44. BABUDIERI B. and D'AMORE A. — Infection of dogs in a training school with « <i>Leptospira canicola</i> »	page	692
45. BABUDIERI B. and CASTELLI M. — The morphology of « <i>Leptospira Celledoni</i> »	»	698
46. PRINCIVALLE M. — The microbiological assay of some group B vitamins and amino-acids. - I. A new method for the assay of thiamine (vitamin B ₁)	»	701
47. PRINCIVALLE M. — The microbiological assay of some group B vitamins and amino-acids. - II. The assay of vitamin B ₆	»	713
48. PRINCIVALLE M. — The microbiological assay of some group B vitamins and amino-acids. - III. A new method for the assay of biotin	»	718
49. CONESTABILE E., BACCARINI V. and CECCHI E. — The red globules of Marchiafava-Micheli disease under electron-microscopic observation	»	724
50. CAVALLINI D., POCCHIARI F. and TENTORI L. — The conversion of ethanolamine to taurine	»	734
51. VISINTIN B. and ERRERA G. — The hygienic significance of eels in drinking water, with particular reference to the reservoir of the island of Pantelleria, and tests of their chlorine resistance	»	737
52. JACOBELLI TURI C. — Analyses of hair dyes. - Note III. Observations and precautions for the chromatography of aromatic amines	»	748
53. JACOBELLI TURI C. — Analyses of hair dyes. - Note IV	»	759
54. BETTINI S. — Observations on the susceptibility of « <i>Musca domestica</i> » L. to malathion in the Chianciano region, after four years of treatment	»	787
55. CANTORE P. and BETTINI S. — Studies on the venom of « <i>Latrodectus tredecimguttatus</i> » Rossi	»	794
56. FRONTALI N. and TOSCHI G. — Subcellular fractions of the electric tissue of « <i>Torpedo</i> ». Morphology and distribution of cholinesterase	»	806
57. SCAFATI A. — The recognition of fission products in atmospheric dust	»	818
58. ASCENZI A., MARINOZZI V. and STEVE-BOCCIARELLI D. — An instrument and a microradiographic technique for research on bone tissue (with particular reference to spongy bone tissue)	»	842

59. GORI G. B. — An automatic arrangement for the trypsination of animal tissue	page	850
60. LONGINOTTI L. — The chromatographic separation and spectrophotometric assay of adenosinetriphosphate (ATP) and adenosinediphosphate (ADP) in animal tissues	»	866
61. PALADINO S. and UGOLINI F. — Improvements of arrangements for guiding and holding stirrers in industrial and semi-industrial fermentors	»	877
62. FRANK M. — A transistorised nephelometer with barrer layer cells	»	883
63. FRANK M. — An automatic apparatus for the preparation of capillary micro-electrodes	»	891
64. AMALDI U. jr. — A focussing system for the injection of electrons into the National Synchrotron	»	896
65. BUSULINI L., GUALANDI G. and VIANELLO E. — Observations on the behaviour of a micro-electrode with a mechanically renewed surface	»	915
66. D'AMORE A., ORFEI Z., RAVAIOLI L., MAZZARACCHIO V. and CASTAGNOLI B. — Foot and mouth disease virus in tissue cultures « in vitro ». VI. The preparation and estimation of anti-foot and mouth sera from cattle	»	923
67. PRINCIVALLE M. — Microbiological assay of some vitamins of the B group. - IV. Determination of p-amino-benzoic acid	»	928
68. GAUDIANO A., PRINCIVALLE M. and ZAMPIERI A. — The action of thiamine and its derivatives on some micro-organisms	»	934
69. CAPORALE G. and CINGOLANI E. — The ultra-violet spectra of some furocoumarines	»	943
70. CAPONE BRAGA P. — On the presence of « Aëdes mariae » in the province of Latina	»	957
71. GATTI G. L. — An analysis of reaction times in the rat conditioned to « pole climbing response » and a comparison between the action of tranquilizers and that of morphine and barbiturates	»	968
72. ORFEI Z., D'AMORE A., RAVAIOLI L., MAZZARACCHIO V. and CASTAGNOLI B. — Foot and mouth disease virus in tissue cultures « in vitro ». VII. Resistance to variations in pH and temperature	»	983

73. PRINCIVALLE M., DE FELIP G., VON LORCH L. and ALBERTI S. — The use of the precipitation reaction for the classification of lactobacilli	page	989
74. GATTI G. L. — Modifications on the central and peripheral sphygmogram of the dog induced by mechanical occlusions of the arteries	»	999
75. CARPI A. and VIRNO M. — Effects of intra-arterial injections of adrenaline, histamine and acetylcholine on the cerebral and extracerebral circulation in the dog . . .	»	1021
76. CARPI A. — Cerebral vascular and electroencephalographic action of strychnine in the dog	»	1032
77. GUALANDI G. and MORISI G. — Polarographic determination of zinc in neuter glasses	»	1070
78. TOSCHI G. — Chromatographic and electrophoretic researches on the cholinesterase of nervous tissue . . .	»	1077
79. ALESSANDRINI M. E., LANFORTI G. F., RAMELLI G. C. and SAMPAOLO A. — Insecticide residues in olive oil from the experiments against « <i>Dacus Oleae</i> Gmel. » carried out in Italy in 1957	»	1097
80. ALESSANDRINI M. E., DORETTI M. and SAMPAOLO A. — The refining of olive oil containing diazinone residues. Note I	»	1116
81. SELLERIO U. — The refrigeration, essential element for the agricultural economy in Sicily	»	1126
82. SACCÁ G. and RIVOSECCHI L. — Speciation in the house-fly. - V. Geographic distribution in the subspecies of « <i>Musca domestica</i> » L. (Diptera, Muscidae) . . .	»	1149
83. SACCÁ G. — Speciation in the house-fly. - VI. Natural and experimental hybridism between subspecies of « <i>Musca domestica</i> » L.	»	1170
84. RICCI M. — Intestinal parasitism in man in the territory of the Abruzzo National Park	»	1185
85. D'AMORE A., GUALDI G., MAROTTA U. and MONACELLI R. — Potassium permeability of red corpuscle membrane. - Note II	»	1209
