

1 in 6 people of reproductive  
age experience infertility  
at some stage

Fertility clinic

Despite this, millions  
struggle to access  
effective and affordable fertility care

Fertility care is health care

# Infertility risk factors:

Some menstrual conditions

Tobacco use

Being over or underweight

Certain medical treatments (e.g. for cancer)

Sexually transmitted infections

Older age

Many cases of infertility are treatable with the right care

Talk to your healthcare provider about your concerns

## An illustration of a woman with long dark hair hugging a man from behind. The man has short dark hair and is wearing a red shirt. The woman is wearing a blue and white patterned top. The background is a solid light blue. The word 'MENT' is partially visible on the left side, and 'SAF' is partially visible on the right side.
