Personal information

First name(s) / Surname(s) **First name Emanuela Surname Corsini**

E-mail emanuela.corsini@unimi.it

Nationality Italian

Date of birth May 26th, 1963

Gender female

Desired employment / Occupational field

Academia

Work experience

Dates 2018 – to present

Occupation or position held Full professor of Toxicology

Main activities and responsibilities Teaching and research

Name and address of employer Università degli Studi di Milano
Via Festa del Perdono 7
Milano

Dates 2004 – 2018

Occupation or position held Associate professor of Toxicology

Main activities and responsibilities Teaching and research

Name and address of employer Università degli Studi di Milano
Via Festa del Perdono 7
Milano

Dates 1992-1994 and 1996-2004

Occupation or position held Fellowship

Main activities and responsibilities Research at the Laboratory of Toxicology at the Department of Pharmacological and Biomolecular Sciences, School of Pharmacy, Università degli Studi di Milano, Milan, Italy

Name and address of employer UNIPRO
Via Accademia 33
20131 Milano

Dates 1994-1996

Occupation or position held Post-doctoral fellowship

Main activities and responsibilities Research at the Laboratory of Toxicology at the Department of Pharmacological and Biomolecular Sciences, School of Pharmacy, Università degli Studi di Milano

Name and address of employer Università degli Studi di Milano
Via Festa del Perdono 7
20100 Milano

Dates	July – August 1995
Occupation or position held	Visiting Scientist
Main activities and responsibilities	Laboratory research on UV toxicity in the Laboratory of Dermatology directed by Dr S. Feldman at the Wake Forest University, Winston Salem, NC, USA
Dates	November 1994 – March 1995
Occupation or position held	Visiting Scientist
Main activities and responsibilities	Research in Laboratory of Immunotoxicology directed by Prof. I. Kimber on the role of cytokines in contact dermatitis
Name and address of employer	CTL Alderley Park UK
Dates	1989 - 1992
Occupation or position held	Visiting scientist
Main activities and responsibilities	Research in the Laboratory of Toxicology directed by Dr M.I. Luster on the role of the immune system in asbestosis and on the immunomodulatory effects of pentamidine
Name and address of employer	NIEHS RTP, NC, USA
Dates	1985 - 1987
Occupation or position held	Student
Main activities and responsibilities	Research in Laboratory of Toxicology directed by Prof. C.L. Galli on food toxicology
Name and address of employer	Università degli Studi di Milano Via Festa del Perdono 7 20100 Milano
Education and training	
Dates	1993
Title of qualification awarded	PhD in Food and Environmental Toxicology
Principal subjects/occupational skills covered	Role of the immune system in asbestosis
Name and type of organisation providing education and training	Università degli Studi di Milano and NIEHS, NC, USA
Dates	1982 - 1987
Title of qualification awarded	Bachelor degree in Food Science and Technology (Magna cum laude)
Principal subjects/occupational skills covered	Food toxicology
Name and type of organisation providing education and training	Università degli Studi di Milano
Dates	1982
Title of qualification awarded	High school degree
Principal subjects/occupational skills covered	Scientific high school
Name and type of organisation providing education and training	Collegio Villoresi San Giuseppe, Monza (MI), Italy
Level in national or international classification	High school

Personal skills and

competences

Other language(s)

(*) *Common European Framework of Reference for Languages*

While the knowledge of French is scholastic, the excellent knowledge of English is demonstrated by several working periods abroad, by the participation in numerous working groups, and in several international projects.

Skills and competences

Emanuela Corsini is a tenured full professor in toxicology at the School of Pharmacy at the Università degli Studi di Milano, Milan, Italy. As such, she organizes and teaches courses in the field of Toxicology at the School of Pharmacy and the School of Environmental Sciences, University of Milan. She has been active in training undergraduate and graduate students at her own university and has also developed and presented lectures for other academic institutions and professional societies, as well as for several SOT CE courses. Her research focuses on the refinement of alternative in vitro tests for immunotoxicity, promoting the regulatory acceptance of alternative methods, and on the understanding the mechanism of action of immunotoxic/immunomodulatory compounds at the molecular level. Dr. Corsini has served on multiple ECVAM and ICCVAM Panels and working groups to establish scientific confidence in alternative methods in immunotoxicology testing, performance standards for these novel assays and the development of integrated testing strategies for their use as part of comprehensive and predictive assessments. She has authored over 190 research publications in toxicology and related disciplines in peer-reviewed journals. She is active in numerous scientific and professional organizations and serves on several editorial boards of toxicology journals. Dr. Corsini currently serves as Secretary General of IUTOX (2019-2022). From 1999-2005 she served as the Treasurer for the Association for In Vitro Toxicology; from 2009-2013 she was a Member of the EUROTOX Education Sub Committee; from 2005-2011 she was the Chair of the Immunotoxicology and Chemical Specialty Section at EUROTOX; from 2010-2016 she was a member of the IUTOX Executive Committee; and from 2013-2021 she has been a member of the EUROTOX Executive Committee.

ORCID ID: 0000-0002-6927-5956**Bibliometric parameters:**Google scholar

- 2010-2011 project: 'Prevalidation of a novel tiered approach to determine the skin sensitizing

	<p>potency of chemicals'. ZonMW, # 114011015</p> <ul style="list-style-type: none"> - 2005-2011 project: 'Novel testing strategies for in vitro assessment of allergens'. Project N. LSHB-CT-2006- 018681 <p>Selected Appointments:</p> <ul style="list-style-type: none"> - Member at EFSA of the Working Group on Phthalates – hazard assessment protocol - Member at EFSA of the Working Groups on TiO2 and BPA re-evaluation - Member of IL-2 LTT Luc assay validation management team as test system, validation and immunotoxicity expert and EUR-L-ECVAM liaison, validation study coordinated by JaCVAM (NIHS) for the in vitro identification of substances with immunosuppressive activity, Japan - Member of the working group that prepared a Detailed Review Paper on 'In vitro immunotoxicity testing' for the OECD, currently under discussion among member states. - 2019-2021 Member of the ECVAM Scientific Advisory Committee (ESAC). Documents published: 'Replacements for animal-derived antibodies'; 'Endocrine disruption – AR-CALUX test method'; 'Bioelution assay'; and 'Scientific Validity of the GARDskin and GARDpotency Test Methods'. - Member of the IL-1 Luc assay validation management team as test system, validation and immunotoxicity expert and EUR-L-ECVAM liaison, validation study coordinated by JaCVAM (NIHS) for the in vitro identification of substances with immunosuppressive activity, Japan. - Member of the IL-2 Luc assay validation management team as a test system, validation and immunotoxicity expert and EUR-L-ECVAM liaison, validation study coordinated by JaCVAM (NIHS) for the in vitro identification of immunosuppressive substances, Japan. The method is under discussion at the OECD. - Member of the Peer Review Panel of the NTP monograph on Systematic Review of Immunotoxicity Associated with Exposure to Perfluorooctanoic Acid (PFOA) or Perfluorooctane Sulfonate (PFOS). Document published in September 2016 (NTP MONOGRAPH ON IMMUNOTOXICITY ASSOCIATED WITH EXPOSURE TO PERFLUOROOCTANOIC ACID (PFOA) OR PERFLUOROOCTANE SULFONATE (PFOS). - Member of IL-8 Luc assay validation management team as test system, validation, and immunotoxicity expert and ECVAM liaison, validation study coordinated by JaCVAM (NIHS) for the in vitro identification of contact allergens, Japan. The method became OECD Test Guideline No. 442E: In Vitro Skin Sensitization in July 2018. - Member of the ESAC Working Group Sensitization-ESAC Peer Review of the Keratinosens, DPRA and h-CLAT studies. ESAC, ECVAM Scientific Advisory Committee. Both methods are currently part of OECD guidelines.
Computer skills and competences	Use of word processing, data sheet and graph programs such as Word, Excel, Power Point as well as statistical analysis and specialized analysis programs (Prisma, CellQuest). Common use of internet and e-mail.
