*ETHICAL COMMITTEE*

Milena Sant  
Analytical Epidemiology and Health Impact Unit  
Department of Preventive and Predictive Medicine

21.04.2016

**OBJECT: "EUROCARE-6, population-based cancer survival in Europe"**

With reference to the observational study in object, I hereby communicate that the institutional Ethical Committee, having viewed the material submitted on 22.03.2016, declares that there are no impediments to the realization of the study for what concerns its competences.

The office's secretariat has assigned to the study the code **N. INT 73/16** and all future correspondence on this matter must refer to such code.

EC President

Dr. Valter Torri
