

# Activities of the National Registry of Hemolytic Uremic Syndrome (HUS) in Italy (1988 – 2014)

***Gaia Scavia***

*Istituto Superiore di Sanità  
EU Reference Laboratory for E.coli  
Dept. of Veterinary Public Health  
and Food Safety*

# The Italian Registry of HUS - 1

Active since 1988, the HUS Registry is coordinated by:

- Italian National Public Health Institute
- Italian Society for Pediatric Nephrology

Network of Pediatric Nephrology Units

Collaborating laboratories:

- **STEC**: National Reference Laboratory for E.coli, Rome
- **Host genetic factors**: Istituto Mario Negri, Bergamo
- **Kinetic of Shiga-toxin**: University of Bologna, Bologna

**Pediatric  
Nephrology Unit**

ALMA MATER STUDIORUM  
UNIVERSITÀ DI BOLOGNA

# The Italian Registry of HUS - 2

## Aims:

- To **describe the epidemiology and clinical pattern** of HUS in Italy and the related STEC infections
- To **investigate pathogenetic mechanisms** and clinical course of HUS
- To study **virulence factors of STEC**
- To promote **translational research on HUS** and the related health care problems
- To **early detect epidemic outbreaks** of STEC-associated HUS

## Feed-back to:

- Regional and National Public Health Authorities
- European Center for Disease Prevention and Control (ECDC)

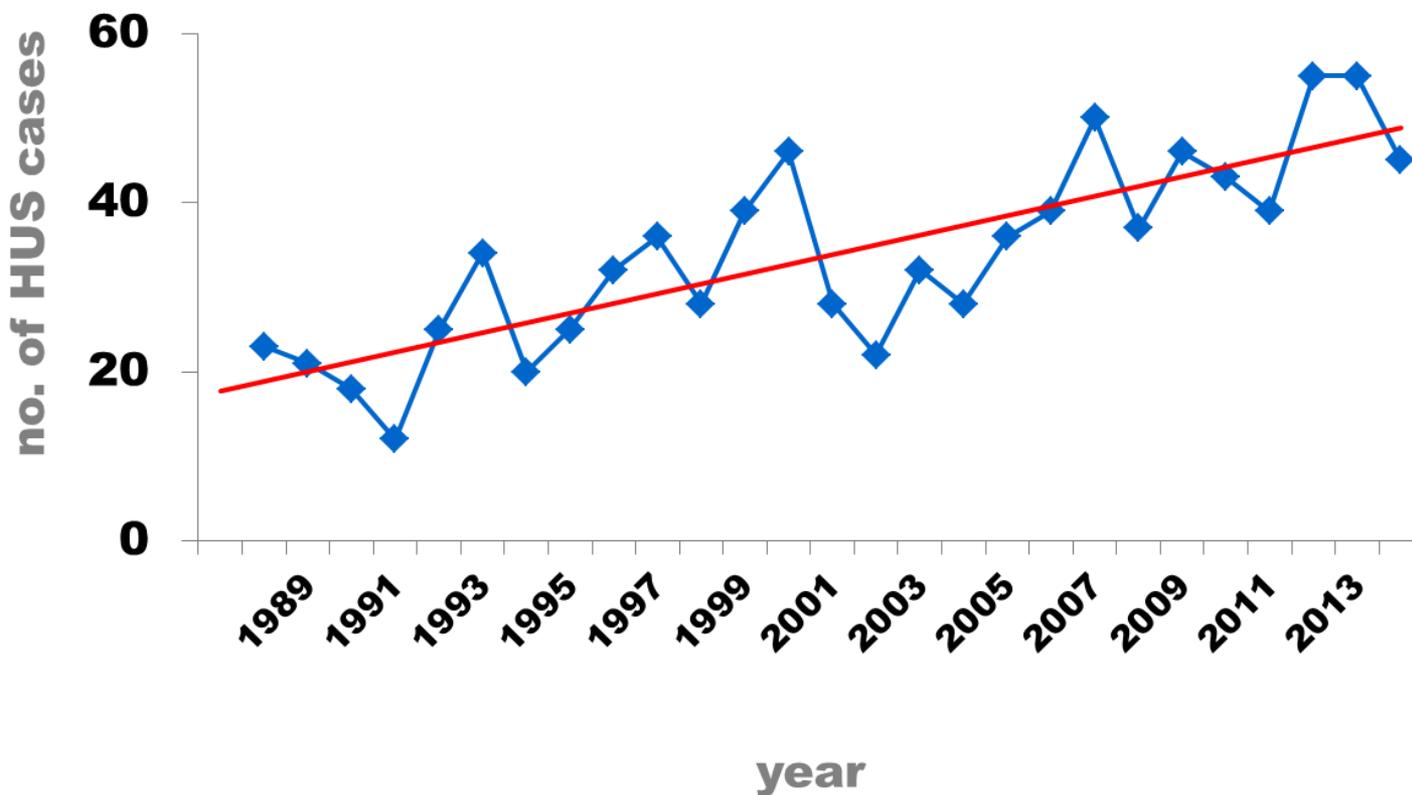

**HUS case definition:**  
Acute renal failure and anemia or thrombocytopenia in children < 15yrs

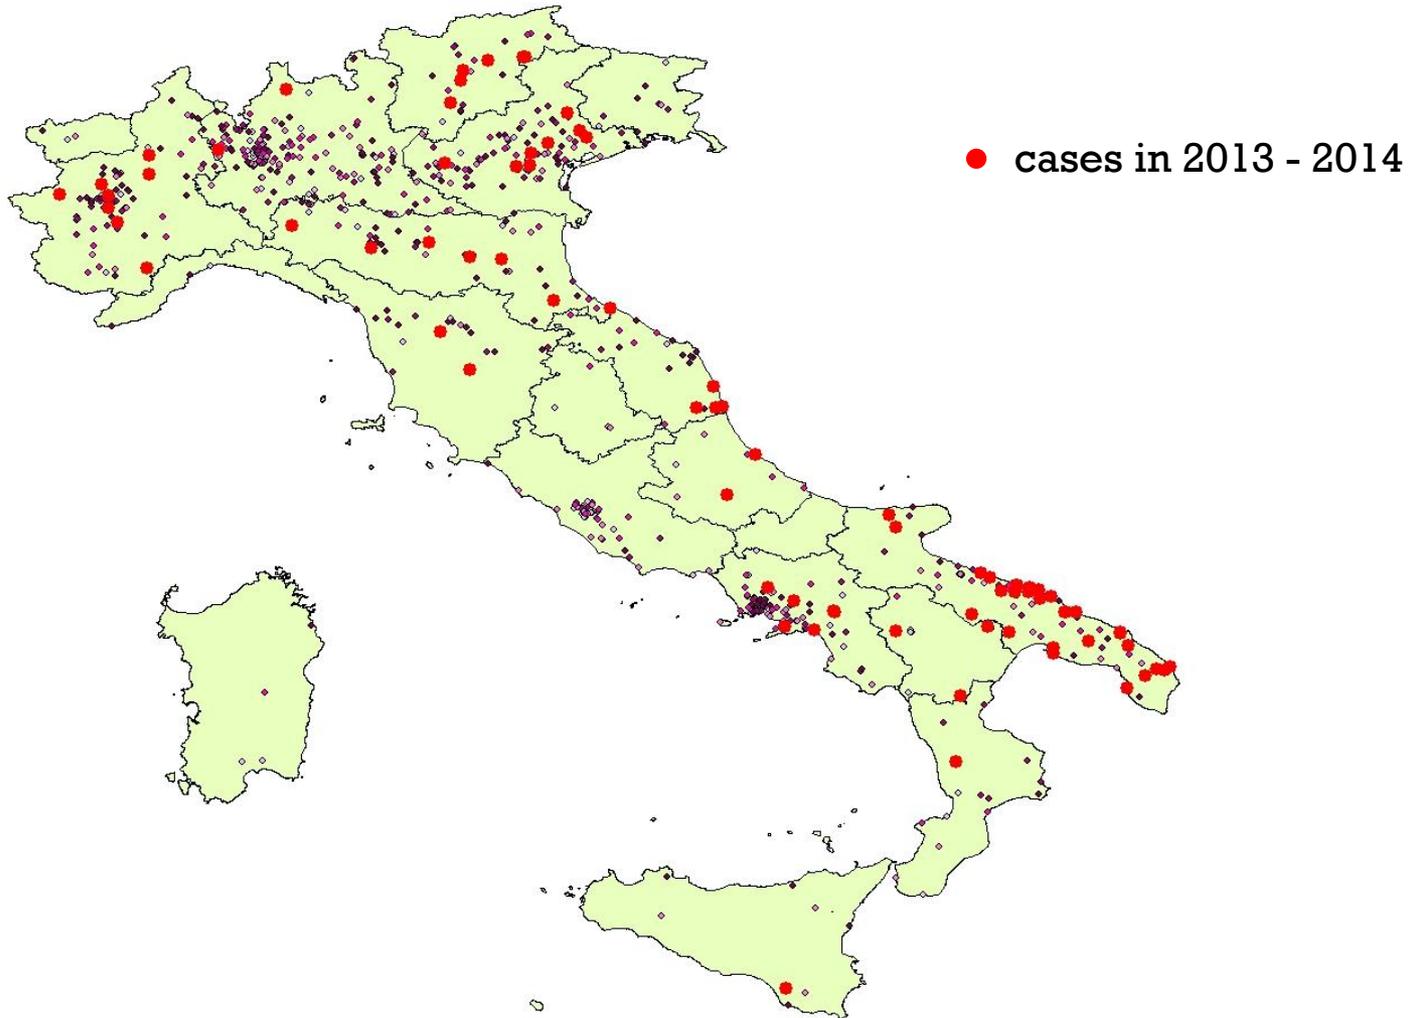

# HUS cases reported to the Italian Registry, by year - 1988-2014

Total HUS cases: **914**  
Mean HUS cases per year: **34 (range 12 – 55)**  
Male / Female Odd: **1,08**  
Age: Median **26 months (range 0 – 15 yrs)**

# Map of HUS cases reported to the Italian Registry - 1988-2014 (N=914)

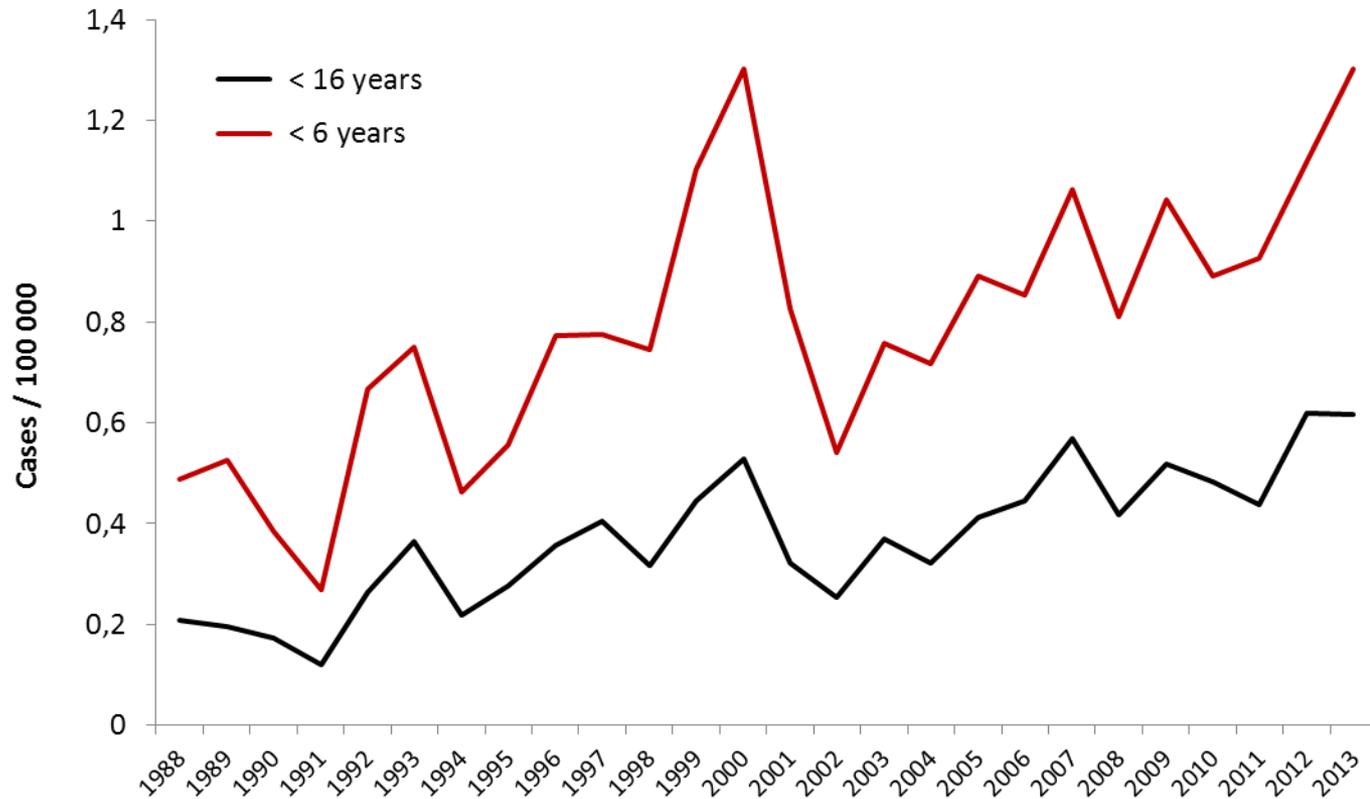

# Incidence of HUS in pediatric population by year (1988-2012)

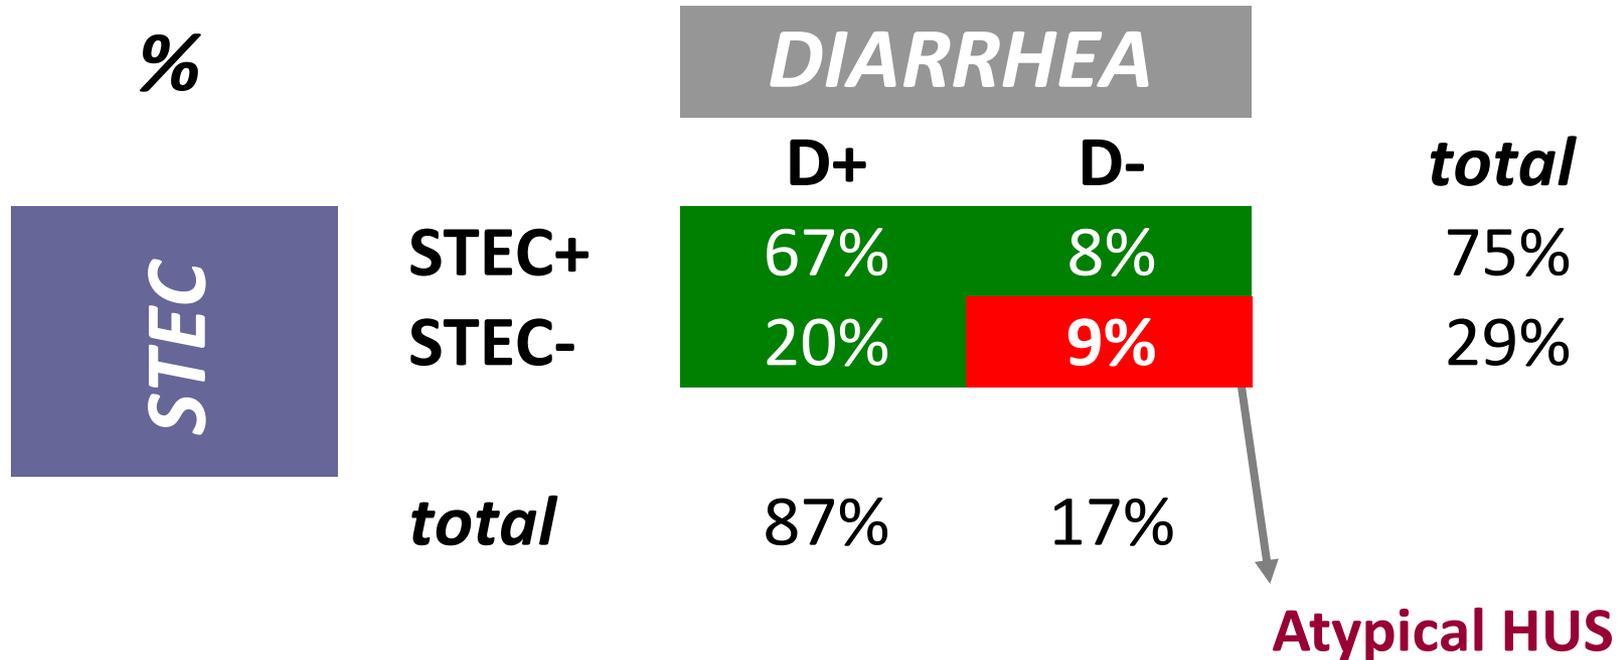

**Mean annual incidence (cases \* 100 000)**

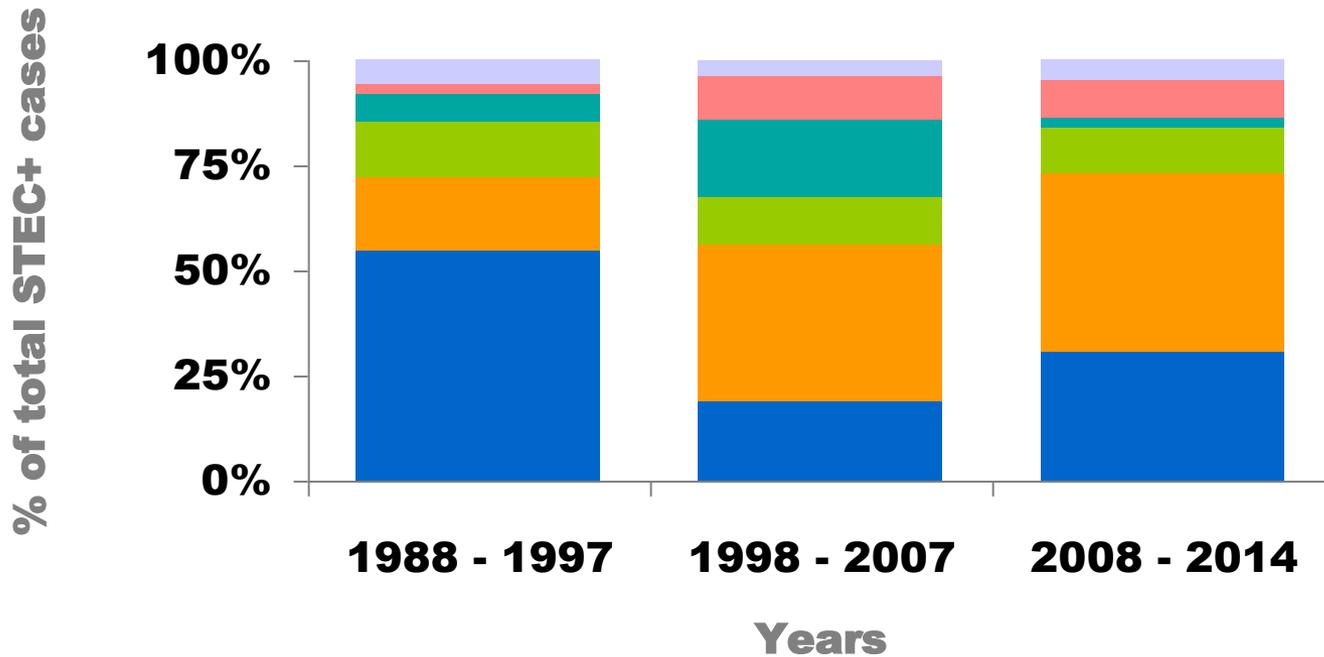

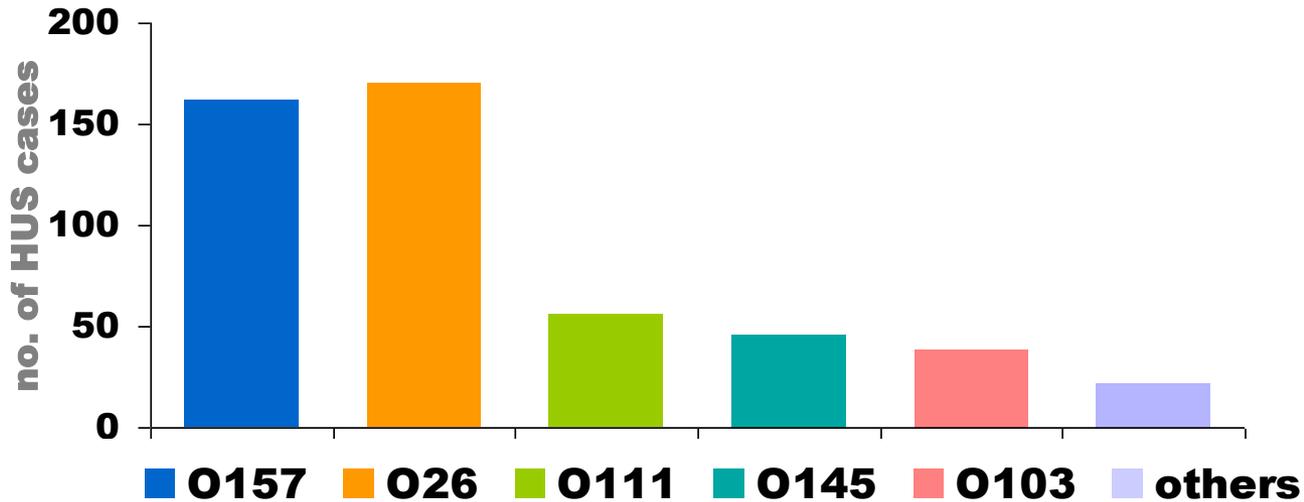

# tHUS vs aHUS: cases by prognostic group (N 686)

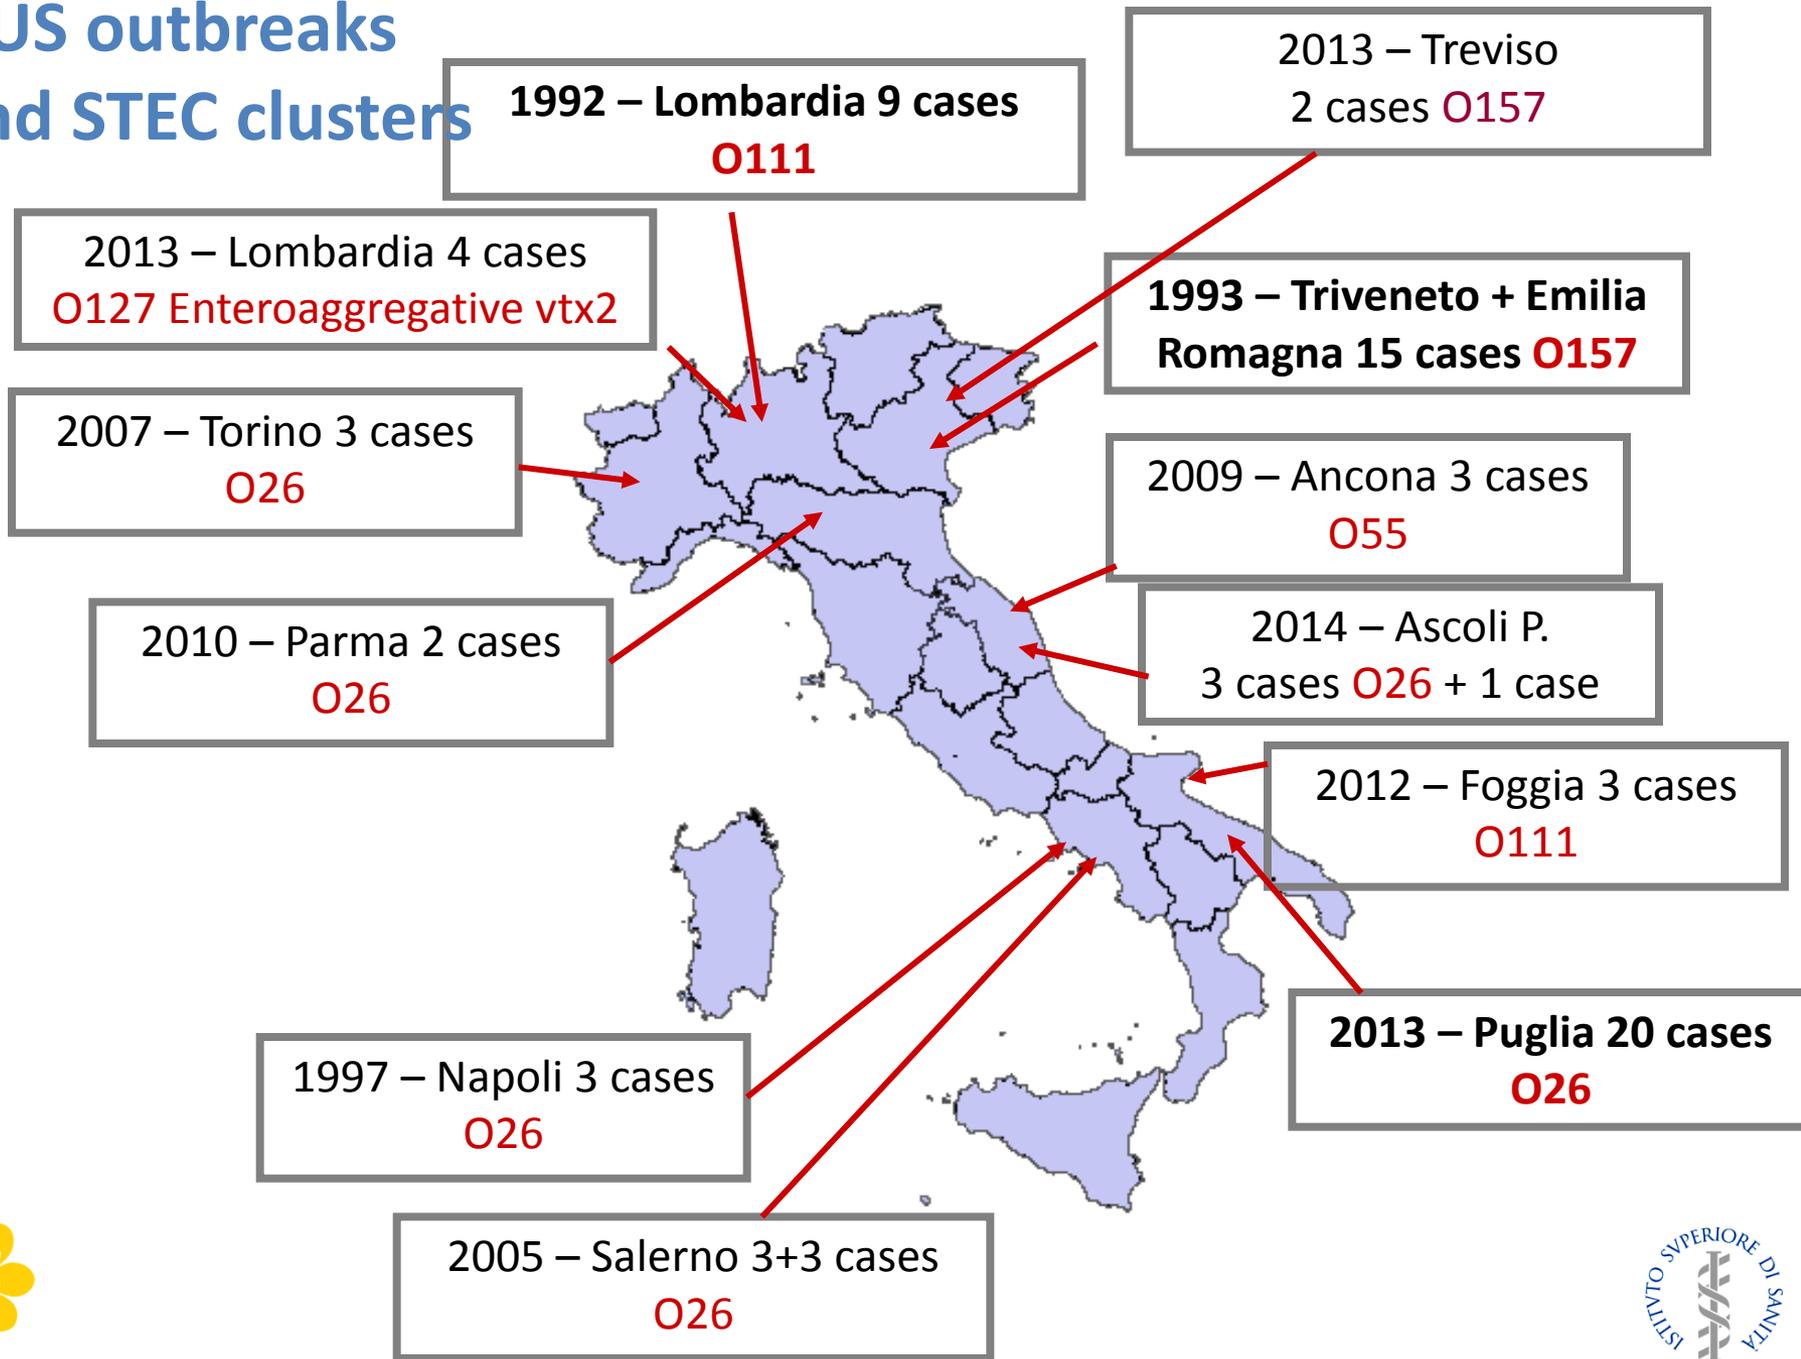

# STEC serogroups diagnosed in tHUS patients (N 494)

# HUS outbreaks and STEC clusters

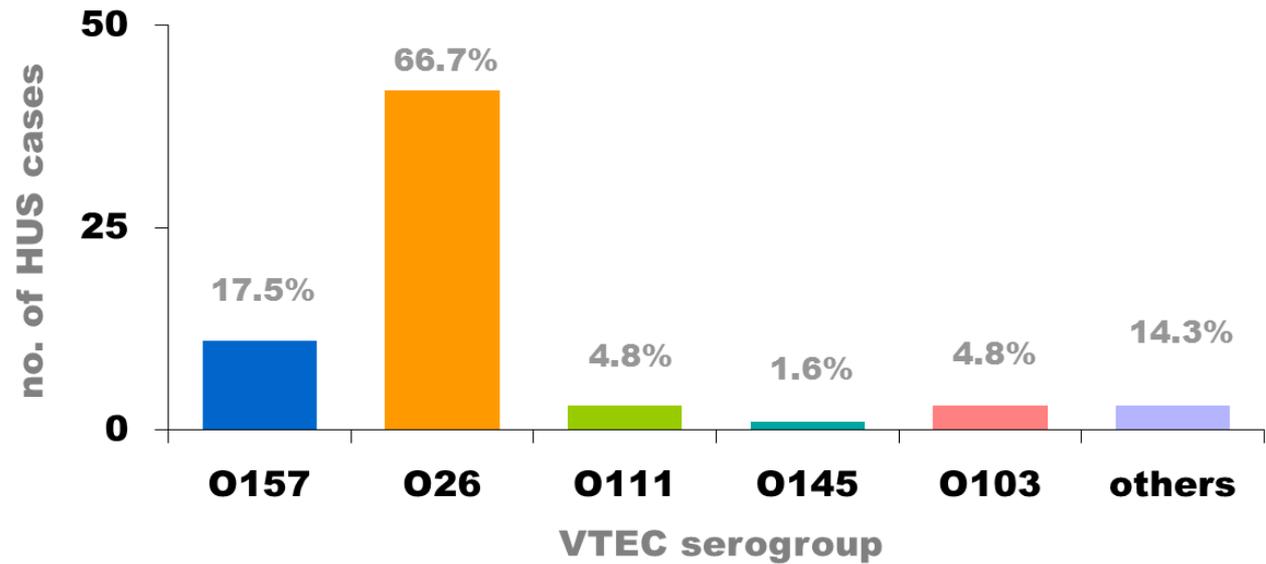

## Summary of the activities of HUS Registry and diagnostic for verocytotoxin-producing E.coli (VTEC)

	2014 (primi 9 mesi)	2013	media 5 anni precedenti	media 10 anni precedenti
n. centri che hanno segnalato casi	13	11	11,8	10,8
n. casi SEU	45	55	44	40,5
% di casi SEU con campioni per VTEC esaminati	95,6%	90,9%	89,5%	88,1%
% casi VTEC+ su casi esaminati	76,7%	86,0%	75,6%	70,9%
casi D-VTEC-	0	3 (5,4%)	2	2

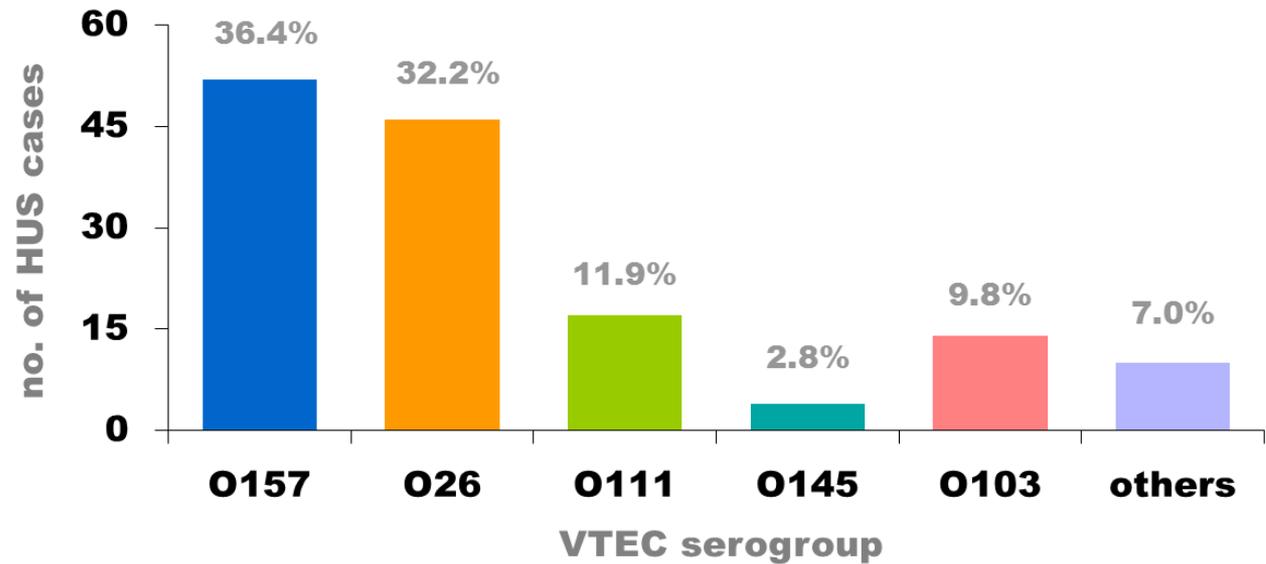

# Typical HUS: associated VTEC serogroups

**2013 - 2014**

**precedenti  
5 anni**

# Epidemic outbreaks: 2013/2014

Chiavenna 2013  
E. Coli O127 eAgg+

Marche 2014  
E.Coli O26

Puglia 2013/2014  
E.Coli O26

# The Italian Registry of HUS

*Ospedale Salesi, Ancona – I.Ratsch*

*Ospedale S.Giovanni XXIII, Bari – T.De Palo*

*Ospedale Meyer, Firenze – P.Romagnani*

*Ospedale IRCCS Gaslini, Genova - A.Trivelli*

*IRCCS Ca' Granda - Clinica pediatrica De Marchi, Milano – A. Edefonti*

*Ospedale di Padova - E.Vidal*

*Ospedale IRCCS Bambino Gesù, Roma – F.Emma*

*Ospedale Regina Margherita, Torino – A.Amore*

*Ospedale Burlo Garofalo, Trieste – M.Pennesi*

*Ospedale Santobono, Napoli – C.Pecoraro*

*Ospedale G. Di Cristina, Palermo – S.Maringhini*

*Ospedale Sant'Orsola Malpighi, Bologna – G.Montini*

*Az. Osp. Policlinico G.Marino, Messina – R. Chimenz*

*EURL E.coli – A. Caprioli*

*IRCCS Mario Negri – E.Daina*

*Univesity of Bologna – M.Brigotti*

**Thank you for your kind attention!**
